_____)

**ORDER AUTHORIZING
TEMPORARY CHANGE**

TC-34-225

A drought emergency has been declared for Butte County to allow administrative actions to lessen the severe impacts of the drought conditions in the county; and

Idaho Code §42-222A provides that upon declaration of a drought emergency, the director of the Department of Water Resources is authorized to allow temporary changes in the point of diversion, the place of use, and the purpose of use for valid existing water rights when the director determines that such changes can be accomplished in accordance with the provisions of Idaho Code §42-222A; and

On July 19, 2022, Larry Jensen submitted the attached Temporary Change Application to the Department; and

The Department has reviewed the application and has determined the application can be approved with certain conditions;

ORDER

IT IS HEREBY ORDERED that the application is APPROVED subject to the following conditions:

1. Diversion and use of the changed portion of Right No(s). 34-2409B and 34-12034B is authorized only at the point of diversion and place of use described on the application.
2. This temporary change approval does not authorize construction of a new well or diversion works as a new point of diversion.
3. The applicant assumes all risk of curtailment or mitigation should the diversion and use of water under the temporary change approval cause injury to other water rights, constitute an enlargement in use of the original right, be inconsistent with the conservation of water resources within the state of Idaho, or not be in the local public interest.
4. This temporary change approval may only be used to provide a replacement water supply to lands or other uses which normally have a full water supply, except for the drought condition. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.

5. Rights 34-2409B and 34-12034B when combined shall not exceed a total diversion rate of 2.20 cfs and the irrigation of 145 acres. Rights 34-28B, 34-61D, 34-373D, 34-663B, 34-664, 34-910, 34-2409B, and 34-12034B when combined shall not exceed a total diversion rate of 4.91 cfs and the irrigation of 172 acres.
6. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the consent of such corporation or irrigation district.
7. The applicant agrees to hold the Director and the State of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
8. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
9. The watermaster of Water District No. 34 is authorized to administer the temporary change approval.
10. This temporary change approval expires on November 1, 2022 unless rescinded or extended by the director. Thereafter, the water right shall revert to the point of diversion, place of use and nature of use existing prior to the temporary change approval.

DATED this 26th day of July, 2022.

Hello, Preston.

I'm Michael Holliday, and I work for IDWR in the Idaho Falls office. I am the person responsible for processing temporary change applications. Most of our temporary changes come from Basin 34. Whenever I receive a temporary change app, I send a copy to you for watermaster comment. Let me know if you have questions about the process.

Attached is a temp change for your comments. Your prompt response will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 7 days, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider. Thanks.
