Subject: Permit 95-17322

Hello Adam and Luke,

I looked at permit 95-17322 to do an in-house field exam, but I discovered that there appears to be 5 houses not 4. I didn't find an application, adjudication claim, or recommendation to cover the other home. I think someone needs to go out and speak with these folks to determine how many homes are system and which homes are on the system. I think this one warrants a field examination to figure out what is going on.

Have fun.
