**Request to Withdraw Temporary Change TC-37-90
In the Name of Lakeside Industries, Inc**

This is a formal request to withdraw Temporary Change TC-37-90 in the name of Lakeside Industries, Inc. for water rights 37-11811, 37-11813, 37-11814 and 37-11815. Improving water supply conditions in the Big Wood River drainage have made this temporary change unnecessary for 2022.

Signed this 30th day of June 2022, for Lakeside Industries, Inc. by

Sharon Lee

Co-owner

Hansen, Angela

Attachments: 2022-07-01 15.10.31.pdf

Ms Hansen,

Attached to this email you will find our request to withdraw Temporary Change 37-90. I will also send a hard copy to your attention. As Mr. Shaw said, this has been an unusually wet spring and we would like to keep these rights on the land they are appurtenant to.

Thank you for your help with our applications.

Happy Fourth!

Sharon Lee

Flag Status: Flagged

Thank you Angie,

I think what has happened is the Glendale water was available so it has been used in spite of the temp transfer being filed. Perhaps a disconnect between the owner in Seattle & the manager in Bellevue.

I will solicit a withdrawal from Sharon tomorrow and get it to you ASAP. Can we send you a signed email version to get the process started and follow up with a withdrawal with a wet signature?

Thank you for your help,
Dave

CAUTION This email originated from outside our organization. Do not click links or open attachments unless you recognize the sender and verify the email address matches their name.

Hi Dave!

I can issue an order to withdraw the approval order before July 13 (within 14 days of the initial approval) IF I receive a signed, written request from Lakeside Industries Inc. (Sharon Lee) before July 13 requesting to withdraw temporary change application TC-37-90. Really the only reason to withdraw the temporary change application at this point (after approval) is IF Lakeside Industries Inc. wants to use water rights 37-11811, 37-11813, 37-11814, and 37-11815 at their original place of use. Otherwise, we can leave the approval of TC-37-90 as is and Lakeside Industries Inc. can simply just not accomplish the temporary change approved.

Please let me know if Lakeside Industries Inc. will be submitted a signed, written request to withdraw TC-37-90 as soon as possible.

Meanwhile, now that TC-37-91 is approved, I need to discuss the options for pending water supply bank lease (app #2340) and rental applications (app #2341 and #2363) associated with water rights 37-2493, 37-11821, 37-11822, and 37-11823. I'll give you a call within this next week to discuss.

Thanks,
Angie

Subject: RE: Temporary Change Approvals for Lakeside Industries Inc

Hi Angela,

I just heard from the applicant – it rained. Since the temp transfer application was filed the Wood River Valley received enough precip to get their runoff forecast up to about 70% of median and the Glendale began delivering water. Is it now possible to withdraw the temporary transfer application for the water rights in the Glendale Canal? If so, the applicant would like to withdraw that transfer application.

Thank you Angela,
Dave

Dave,

Thank you for clarifying this point and bringing it to our attention so quickly. No additional action is required on your or the applicant's part. Per Rule 760 of the Department's Rules of Procedure (IDAPA.37.01.01.760), I can and will issue an order to withdraw my first preliminary order and issue an amended preliminary order to correct this for TC-37-90. Expect that amended decision asap.

Regards,
Angie

Jean,

When I spoke with Dan Nelson about these temp transfers, I tried to make clear Lakeside wants all the rights diverted into the ByPass to be rediverted at the Graf. Lakeside does not want any of the rights to remain in the Glendale, they are at the end of the ditch and seldom get their water even when their rights are in priority.

Please let me know what need to be done to make this correction.

Thank you for your help,

Dave
