APPLICATION FOR TRANSFER OF WATER RIGHT – POINT(S) OF DIVERSION

This form may be used to apply to change and/or add points of diversion for existing water rights and to report an ownership change for a water right(s) in connection with the proposed point of diversion change(s). Do not use this form to apply for changes to other elements of a water right. See the *Application for Transfer Instructions* for help completing this form and for mailing addresses of Department offices where your application can be submitted.

Check all that apply:

☐ Change diversion point(s) ☑ Add diversion point(s) ☐ Ownership change ☐ Ownership split

☐ Transfer is for changes pursuant to Idaho Code § 42-221.O.8. Attach an explanation and any supporting documentation.

1. **APPLICANT(S)** City of Caldwell Phone (208) 455-4734
2. **MAILING ADDRESS** 621 Cleveland Blvd City Caldwell
   State ID Zip 83605 Email borton@cityofcaldwell.org

☐ If the applicant is not an individual and not registered to do business in the State of Idaho, attach documentation identifying officers authorized to sign for the applicant.

☐ If the applicant is not the current water right(s) owner, attach documentation of authority to file the application.

☐ If the application includes a change in ownership of water right(s), attach a copy of the conveyance document, such as a warranty deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property conveyed or description of the water right if no land is conveyed. Additional fee(s) are required for water right ownership changes; see Item 9 for the fee schedule.

If the ownership change resulted in the water right(s) being split, how did the division occur? Mark one:

☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.

☐ If the application is not signed by the applicant, attach a Power of Attorney or other documentation providing authority to sign for the applicant.

3. **LIST WATER RIGHT NUMBER(S)** 63-3441, 5051, 5053, 5054, 5055, 7158, 7910, 8008, 8299, 8986, 8987, 9358, 10316, 10317, 12144, 31283, 31550, 32024, 32025, 32026, 32027, 32028, 32029, 32030, 32031,32032,32033,32038

☑ Attach a copy of the water right(s) as recorded, available at *idwr.idaho.gov, Water Right Transfers, Step 1*, or by contacting any Department office.

4. **TOTAL AMOUNT OF WATER** transferred is 44.15 (diversion rate) cubic feet per second and/or _____ (storage volume) acre-feet per annum.

5. **POINT OF DIVERSION** – Describe all the point(s) of diversion to be included on the water right(s) after the proposed change.

☐ Attach Eastern Snake Plain Aquifer (ESPA) analysis if this transfer proposes to change a point of diversion affecting the ESPA. ESPA analysis information is available at idwr.idaho.gov, *Water Rights, Water Right Transfers, Modeling Resources.*

6. **GENERAL INFORMATION**

a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Wells diverting into a common distribution system for delivery to the City's citizens. Measuring devices and lockable control works to be installed as required.

b. Who owns the property at the point(s) of diversion? Applicant

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes	No	
☐	☑	undergone a period of five or more consecutive years of non-use,
☐	☑	currently used in a mitigation plan limiting the use of water under the right(s), or
☐	☑	currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe:

d. Is any portion of the water right(s) proposed to be changed currently leased to the Water Supply Bank? ☐ Yes ☑ No

☐ If yes and there are multiple owners, attach a Lessor Designation form.
☐ If yes, the individual owner or designated lessor must complete, sign and attach an IRS Form W-9.
(Disregard if these items are on file and ownership has not changed.)

7. **MAP** – ☑ Attach a map of the diversion, measurement, control and distribution system. Include the place of use if a split of the water right occurred. Clearly label the map with township, range, section and ¼ ¼ of section information. You may create a map at idwr.idaho.gov, *Water Rights, Water Right Transfers, File a Transfer Application, Step 2C.*

8. **SIGNATURE** – The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

Signature of applicant or authorized agent	Print name and title if applicable	Date

Narrative Explaining Transfer Application

This transfer application proposes to add all of the points of diversion for municipal water rights held by the City of Caldwell to all of the municipal water rights held by the City of Caldwell. The purpose of the application is to ensure flexibility for the City as it exercises its water rights, and to ensure that water rights can continue to be used even if the well that is the original point of diversion for a specific water right is unavailable – whether that unavailability be temporary or permanent.

This proposed transfer is similar in nature to Transfer No. 81351, filed by the City of Meridian, and approved by IDWR on June 5, 2017. Please direct further inquiries to Ed Squires of Hydro Logic, Inc. , at 208-631-6781.

Conditions of Approval:

1. 028 After specific notification by the department, the right holder shall annually report the amount of water diverted to the department.

2. Place of use is located within the city of Caldwell and surrounding service area.
The right holder is responsible to ensure that pumpage under this right does not directly cause the water level to significantly decline in any domestic wells drilled and in use prior to March 29, 1978, or any irrigation well drilled and in use prior to July 1, 1953, or to cause the water level in any other well having a prior right to exceed a reasonable pumping level, unless the right holder provides reasonable compensation or mitigation to the prior water right holder for the reduced water levels as determined by the Director.
A totalizing flow measurement device of a type approved by the Department shall be maintained as a part of the diverting works. This device shall be maintained by the right holder and shall be made available to inspection by Department personnel for the purpose of long-range study and monitoring of the ground water aquifer. The right holder shall maintain records of the amount of water diverted under this right.
The daily diversion volume for non-domestic uses under this municipal right shall not exceed 2,500 gallons per use and irrigation uses under this municipal right shall not exceed 1/2 acre within each platted subdivision lot upon which a domestic dwelling has been constructed.

Conditions of Approval:

1.	01M	After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
2.	180	A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
3.		Water bearing zone to be appropriated is 260 to 416 feet.
4.	004	The issuance of this right does not grant any right-of-way or easement across the land of another.
5.	102	The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
6.	124	Place of use is within the service area of the City of Caldwell municipal water supply system as provided for under Idaho Law.

Conditions of Approval:

1.	180	A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
2.		Water bearing zone is between 199 and 320 feet.
3.		The well serving as the point of diversion for this right shall be continuously cased and sealed from land surface to the top of the completion aquifer at 199 feet below ground level. The seal shall consist of an approved grout pumped into place from the base of the casing, or a solid bentonite chip poured into place, into a uniform annular space surrounding the centralized casing.
4.	103	When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.
5.	124	Place of use is within the service area of the City of Caldwell municipal water supply system as provided for under Idaho Law.
6.	102	The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.

Watermaster:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right applications. You can find a copy of the applications at: https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx. Please review the application, then complete the enclosed recommendation form and return it to this office by July 25, 2022.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation by July 25, 2022, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Please contact the Western Region office at (208) 334-2190 if you have any questions regarding the application.

Hello Ed,

Upon thorough review of the 28 water rights included in the City of Caldwell transfer application, there are 2 wells listed in the application that are not existing PODs.
The attachment is page 4 of the transfer application. Wells #19A and #18 are not included in any water right on record.

Please check the "yes" box, initial, and date next to wells #19A and #18 and email the edited document back to me.
If you have any questions, please reach out.

Laura,

I noticed a typo on the first page of Caldwell's Multiple Points of Diversion water rights transfer application where the "Local Name" on the third line down was listed as Well #6 rather that the correct name, "Well #8". Caldwell's Public Works Director, Brent Orton, inked the "6" into an "8" and initialed/dated the typo repair on the attached PDF file.

As Charlie Honsinger indicated in your requested narrative summary of the transfer, I will be the point of contact for any additional information requests or questions related to this application. My cellular phone, and/or e-mail are the best ways to contact me.

All for now.

Ashley,

A map was not submitted with the transfer application. The original application and all supporting documents were returned on January 7, 2022.

According to the application, there are 3 new points of diversion (POD). Please provide a legal map (pdf with legal description) showing the exact locations of each POD.
Please resubmit the original application with a map and the additional fee mentioned in several correspondences by February 7, 2022, to further process the transfer application.

If you have any questions, please contact me directly.

Laura,

I spoke to your office's agent of the day today, but she wasn't familiar with our application. I suspect that our application was prepared by a consultant, then signed internally. Did we neglect to submit any map at all?

For the map, do you just want a pdf with the legal description (Township, Range, Section, etc) and the POD's, or do you want something special since it's a municipal transfer (...where "something special" is a shapefile of the City's service area and shapefile of POD's, and/or something more)?

Thanks,
Ashley

Tammy,

Should have coppied you on e-mail. Yes, we are on this and have spoken with IDWR and obtained a time extension. Should be filing the amendment and paying the increased fee the week after New Years.

Ed

Hi Ed,

Hope you enjoyed some holiday downtime with your family. Here comes 2022. I hope it's smooth☺

Our office received this from IDWR requesting additional payment of $470 and a map.

Unsure if I need to do something with it? Please let me know if so.

Thank You,

Re: Water Right Application Incomplete - Returned

Dear Applicant:

You filed an application for transfer of water right with the Idaho Department of Water Resources (IDWR) on September 19, 2021. IDWR requested additional information from you on October 12, 2021 and December 06, 2021. At least thirty (30) days were provided for you to submit a written response. A response has not been received.

IDWR assumes you have no interest in this application and therefore is returning it, see enclosed.

If you re-file the application including the previously requested information within thirty (30) days, your application fee will be applied to the re-submitted filing. A refund will not be issued if IDWR does not here from you by then.

Please contact me at 208-605-4633 if you have any questions about your returned application or for re-filing an application. Also, additional information regarding IDWR is available on the Internet at www.idwr.idaho.gov.

Sincerely,

Dear Interested Parties:

The Department of Water Resources Western Office acknowledges receipt of your Application for Amendment of a Permit.

Review of your Notice indicates that additional information is required before the Department can process the change. The information required is indicated below:

____ Water Right Number

____ Filing Fee of $25 per water right

_x__ Appropriate Filing Fee for Transfer of Water Right

____ Signature

____ Notarized Signature for Assignment of Permit

____ Evidence of Water Right Ownership: copy of Deed, Title Policy, Contract of Sale, or other legal document indicating your ownership of the property and/or water rights in question

____ Evidence of Security Interest: copy of Deed of Trust, Mortgage, Contract of Sale or other legal document indicating your interest in the property and water rights in question

____ Security Interest Expiration Date

_x__ Scale Appropriate Map

____ Plat of Property or Survey Map usually on file with the county

____ USDA Farm Service Agency (formerly ASCS) Aerial Photo with irrigated acres outlined and point(s) of diversion clearly marked

____ Description of Portion of Water Right resulting from division of water right

Applications for changes pursuant to Idaho Code 42-221.O.8 require a filing fee of $50 per water right. All other application fees are based in the storage volume (AFY) or on the diversion rate (CFS) being transferred, not necessarily on the amount of the entire right. Based on the total diversion rate proposed on the application, 43.75 CFS, the application fee is $2970 (see the provided fee schedule). Partial payment of $2500 was received and the remaining $470 is due to process the application.

Also, please provide a scale appropriate map(s) clearly showing point(s) of diversion in the distributions system(s).

Because the Department cannot process the application without proper information and fees, we will hold any action on your application pending receipt of the necessary information and fees. If we do not receive the necessary information and fees within 30 days we will return your application and all attachments and your application will not be processed.

If you have any questions regarding this matter, please contact our office at (208) 334-2190.

APPLICATION FOR TRANSFER OF WATER RIGHT – POINT(S) OF DIVERSION

This form may be used to apply to change and/or add points of diversion for existing water rights and to report an ownership change for a water right(s) in connection with the proposed point of diversion change(s). Do not use this form to apply for changes to other elements of a water right. See the *Application for Transfer Instructions* for help completing this form and for mailing addresses of Department offices where your application can be submitted.

COPY

Check all that apply:

☐ Change diversion point(s) ☑ Add diversion point(s) ☐ Ownership change ☐ Ownership split

☐ Transfer is for changes pursuant to Idaho Code § 42-221.O.8. Attach an explanation and any supporting documentation.

1. **APPLICANT(S)** City of Caldwell Phone 208-455-4734
2. **MAILING ADDRESS** 621 Cleveland Blvd. City Caldwell
   State ID Zip 83605 Email borton@cityofcaldwell.org

☐ If the applicant is not an individual and not registered to do business in the State of Idaho, attach documentation identifying officers authorized to sign for the applicant.

☐ If the applicant is not the current water right(s) owner, attach documentation of authority to file the application.

☐ If the application includes a change in ownership of water right(s), attach a copy of the conveyance document, such as a warranty deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property conveyed or description of the water right if no land is conveyed. Additional fee(s) are required for water right ownership changes; see Item 9 for the fee schedule.

If the ownership change resulted in the water right(s) being split, how did the division occur? Mark one:

☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.

☐ If the application is not signed by the applicant, attach a Power of Attorney or other documentation providing authority to sign for the applicant.

6. **GENERAL INFORMATION**

a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Wells diverting into a common distribution system for delivery to the City's citizens. Measuring devices and lockable control works to be installed as required.

b. Who owns the property at the point(s) of diversion? Applicant

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes	No	
☐	☑	undergone a period of five or more consecutive years of non-use,
☐	☑	currently used in a mitigation plan limiting the use of water under the right(s), or
☐	☑	currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe:

d. Is any portion of the water right(s) proposed to be changed currently leased to the Water Supply Bank? ☐ Yes ☑ No

☐ If yes and there are multiple owners, attach a Lessor Designation form.
☐ If yes, the individual owner or designated lessor must complete, sign and attach an IRS Form W-9.
(Disregard if these items are on file and ownership has not changed.)

7. **MAP** – ☑ Attach a map of the diversion, measurement, control and distribution system. Include the place of use if a split of the water right occurred. Clearly label the map with township, range, section and ¼ ¼ of section information. You may create a map at idwr.idaho.gov, *Water Rights, Water Right Transfers, File a Transfer Application, Step 2C.*

8. **SIGNATURE** – The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

Narrative Explaining Transfer Application

This transfer application proposes to add all of the points of diversion for municipal water rights held by the City of Caldwell to all of the municipal water rights held by the City of Caldwell. The purpose of the application is to ensure flexibility for the City as it exercises its water rights, and to ensure that water rights can continue to be used even if the well that is the original point of diversion for a specific water right is unavailable – whether that unavailability be temporary or permanent.

This proposed transfer is similar in nature to Transfer No. 81351, filed by the City of Meridian, and approved by IDWR on June 5, 2017. Please direct further inquiries to Ed Squires of Hydro Logic, Inc. at 208-631-6781.
