2. Representatives

Submitter is one of the applicants

3. Source of Water Supply

Source : SPRINGS tributary to SPRING CREEK

4. Location of Point(s) of Diversion

POD #	Source	Tributary Of	Diversion Type	Township	Range	Section	Govt Lot	QQ/QQ/Q	County
1	SPRINGS	SPRING CREEK		07N	01W	1	5	NW/SE/WW	GEM

* spring source is separate from permit 65-24127 of J.

5. Water will be used for the following purposes:

Purposes	Season	Rate	Volume	Description
DOMESTIC	01/01 to 12/31	0.02 cfs	0.00 afa	The single structure contains a main 3 bedroom 2 bath home plus a 1 bedroom 1 bath basement apartment.
STOCKWATER	01/01 to 12/31	0.02 cfs	0.00 afa	water horses in pastures and stalls
IRRIGATION	3/15 to 10/31	0.02 cfs	0.00 afa	driplines for various windbreaks and sprinklers for arena and pasture

6. Total quantity to be appropriated is (a) 0.02 cfs and/or 0 afa

7. Proposed Diverting Works:

POD No : 1

Description: There was an existing diversion when we purchased the property in 1991 - it was one copper pipe inserted into the springs horizontally which fed a house (burned down about 1945) and stock tank. We improved the water system by inserting 4 French drains horizontally into the springs which empty into two 2500 gallon storage tanks connected in series. A pump is connected at the outlet of the second storage tank. The outlet pipe then continues approximately 300 feet SE diagonally where it splits to feed 1) the house and 2) the barn & a 500 gallon stock tank. The pipe to the barn splits above the barn. 1 pipe goes through the barn, down to a valve used to regulate the volume in 11 stall waterers in the barn then continues to a 500 gallon stock tank, which overflows to Spring Creek. The second pipe goes around the east side of the barn & feeds into a pressure tank. The pressure tank then returns water via a pipe which goes back up the hill serving a frost free waterer in each of 5 pastures and 2 frost free hydrants. The frost free hydrants supply water to various driplines and sprinklers.

8. Description of Place Of Use:

DOMESTIC							
Township	Range	Section	QQ	Q	County	Govt Lot	Acres
07N	01W	1	SW	NW	GEM	5	
STOCKWATER							
Township	Range	Section	QQ	Q	County	Govt Lot	Acres
07N	01W	1	SW	NW	GEM	5	
IRRIGATION							
Township	Range	Section	QQ	Q	County	Govt Lot	Acres
07N	01W	1	SW	NW	GEM	5	4.10
07N	01W	1	NW	NW	GEM	4	0.50

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping.

permit 1264 second spring for stock water on same farm

10. Land Ownership

- Who owns the land to be irrigated or place of use? Applicant
- Who owns the land at the point of diversion? Applicant

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.

Water has been in use past 30 years; we thought we had water rights when we bought it and just recently found that we didn't, so we're rectifying the situation

RE: Application for Permit No. 65-24127 & 65-24138

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the MESSENGER INDEX on 7/6/2022 and 7/13/2022. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Jean Hersley
Technical Records Specialist

Watermaster:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right application. You can find a copy of the application at: <https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>. Please review the application, then complete the enclosed recommendation form and return it to this office by July 25, 2022.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation by July 25, 2022, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Please contact the Western Region office at (208) 334-2190 if you have any questions regarding the application.

Re: Water Right Application for Permit # 65-24138

Dear Mr. and Ms. Jumper,

This letter is regarding application for permit no. 65-24138 submitted to the Department on April 19, 2022. I am currently reviewing the applications proposal to ensure that the project is adequately described before it is publicly advertised.

I ran into a few items while reviewing the application.

Could you please provide the following information concerning items from your application?

- **Item 4.** Location of the point of diversion (POD). Spring sources need to be described to the nearest 10-acre tract. Please amend item 4 by adding the 10-acre tract (QQQ) for the proposed POD.
- Also, can you verify that the spring source applied for on permit application 65-24127 for stock water is in a separate system from the spring source applied for on this permit application for domestic, stock water, and irrigation.
- **Items 5 & 6.** Diversion amount. The diversion rate applied for is in ~~excess~~ of the duty of water which is $0.02 \text{ cfs/acre} \times 4.7 \text{ acres} = 0.09 \text{ cfs}$. Please amend the application to the allowed rate or confirm that you would like the rate on the original application. This will not affect the fee which you originally paid.

Any changes to your original application should be made by crossing out the old values, writing in the new values, and adding the date and your initials next to the changes.

Please submit the requested information within the next thirty (30) days for the application to be processed. You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. If IDWR does not receive your written response within **thirty (30) days**, a refund will be issued for this filing.

Please let me know if you have any questions regarding the content of this letter. I can be reached by phone at 208-334-2190 or by email at allen.bradbury@idwr.idaho.gov. IDWR forms and other information can be found at www.idwr.idaho.gov.

Sincerely,

A handwritten signature in black ink that reads "Allen Bradbury". The signature is written in a cursive style with a large, stylized "B" at the end.
