RE: Permit No. 65-23859

Dear Permit Holders:

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Western Region Office of the Department located in Boise at (208) 334-2190.

Subject: Bens Well Drilling Co.

Debbi,

#753 for Ben's Well Drilling Co. (Ben Mclarin) Kensie confirmed that the paperwork submitted by the well driller would go through the regions. Scenario 1. The well driller did not submit anything (which happens) Scenario 2. Chad has it. I called Chad and he knew that this particular driller's report is like a ghost and there are no breadcrumbs. Apparently, they were working on this yesterday and had to do some detective work. He mentioned that these folks could barely remember who even drilled the well. He suggested perhaps there was miscommunication between the owners and the driller. Also, he knew this particular driller is on top of it and very unlikely forgot to submit paperwork. While I have been typing this email, Skinner called me back because they figured it out that it's a well that is not a well as the depth is <18 ft. There is no metal tag, and they figured out that Ben DID drill this hole but since it is not technically a well, no paperwork was submitted.

So, I am not sure how you want to record that for the proof of beneficial use. I am curious how that would go.

Best of luck
