**ORDER AUTHORIZING
TEMPORARY CHANGE**

TC-34-223

A drought emergency has been declared for Custer County to allow administrative actions to lessen the severe impacts of the drought conditions in the county; and

Idaho Code §42-222A provides that upon declaration of a drought emergency, the director of the Department of Water Resources is authorized to allow temporary changes in the point of diversion, the place of use, and the purpose of use for valid existing water rights when the director determines that such changes can be accomplished in accordance with the provisions of Idaho Code §42-222A; and

On June 8, 2022, Loy & Lana Pehrson, Byron & Terri Pehrson, and Monica & Jeremy Hampton submitted the attached Temporary Change Application to the Department; and

The Department has reviewed the application and has determined the application can be approved with certain conditions;

ORDER

IT IS HEREBY ORDERED that the application is APPROVED subject to the following conditions:

1. Diversion and use of the changed portions of Right No(s). 34-12378, 34-13829, and 34-14146 is authorized only at the point of diversion and place of use described on the application.
2. This temporary change approval does not authorize construction of a new well or diversion works as a new point of diversion.
3. The applicant assumes all risk of curtailment or mitigation should the diversion and use of water under the temporary change approval cause injury to other water rights, constitute an enlargement in use of the original right, be inconsistent with the conservation of water resources within the state of Idaho, or not be in the local public interest.
4. This temporary change approval may only be used to provide a replacement water supply to lands or other uses which normally have a full water supply, except for the drought condition. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.

5. Right 34-12378 is for an enlargement of 61.4 acres within the authorized places of use. Right 34-12378 is based upon an enlargement of Right No. 34-13829 pursuant to Section 42-1426, Idaho Code. Right 34-12378 is subordinate to all water rights with a priority date earlier than April 12, 1994, that are not decreed as enlargements pursuant to Section 42-1426, Idaho Code. As between water rights decreed as enlargements pursuant to Section 42-1426, Idaho Code, the earlier priority right is the superior right.
6. Right 34-13829 is limited to the irrigation of 159.7 acres within the authorized places of use in a single irrigation season.
7. Rights 34-12378 and 34-13829 when combined shall not exceed a total diversion rate of 3.19 cfs. Rights 34-28G, 34-131B, 34-132B, 34-191, 34-13829 and 34-12378 when combined shall not exceed a total diversion rate of 5.53 cfs and the irrigation of 221.1 acres.
8. Rights 34-14142, 34-14144, and 34-14146 when combined shall not exceed the irrigation of 18.7 acres.
9. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the consent of such corporation or irrigation district.
10. The applicant agrees to hold the Director and the State of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
11. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
12. The watermaster of Water District No. 34 is authorized to administer the temporary change approval.
13. This temporary change approval expires on November 1, 2022 unless rescinded or extended by the director. Thereafter, the water right shall revert to the point of diversion, place of use and nature of use existing prior to the temporary change approval.

DATED this 17th day of June, 2022.

6. General Information:

- a. Who owns the water right to be changed? Monica and Jeremy Hampton
- b. Describe the arrangement allowing use of the right. This temp change application is signed by the Hamptons.
- c. Describe the affect on the land now irrigated if the change is approved pursuant to this application:
36 acres at the existing place of use will be dried up for the remainder of the irrigation season.
- d. Has the water right sought to be transferred been used this year? ☐ Yes ☒ No If yes, explain. _____
- e. Absent the changes, how would the right be used for the remainder of the year? It could be used to irrigate the existing place of use.
- f. Describe other water rights used for the same purpose. See below
- g. Remarks: Rights 34-14824 thru 34-14828 are GW rights used to cover 59.6 acres under the same pivot.
Proposed POU also covered by BLR rights (odd numbers 34-14189 through 34-14209) and storage.

I hereby assume all risk in accordance with Section 42-222A, Idaho Code, and assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in voiding its approval.

Mr. Cefalo,

Thank you for your time this afternoon to talk with Loy Pehrson and myself on the phone.

To reiterate our conversation, in addition to the irrigation of the few hundred remaining blue spruce trees which are irrigated by drip system on the property, we routinely use water for field irrigation early in the season to extend the growth of grasses in our fenced pastures. We maintain a small sheep flock on the property. In order to extend the time before the sheep graze down those pastures, we utilize hoses and sprinklers from various hydrants located in said pastures.

Please feel free to contact me with any further questions
