Review & Evaluation of Sufficiency of Information
6/7/2022

Authority to File: The applicant is listed as the current owner of the right being transferred and the current owner of the property according to IDWR records.

Water Right Validity: The water right is valid and has been partially decreed.

Injury to Other Water Rights: While a point of diversion is proposed to be moved upstream from its original location, there are no other rights in between the old and new location and the applicant owns all of the land in between as well.

Enlargement of Use: None.

Local Public interest: No negative issues anticipated.

Beneficial Use/Conservation of Water Resources: Proposed irrigation use is recognized as a beneficial use of water.

Effect on Economy the Local Area: New location of irrigation should produce more yields.

Effect on Agricultural Base of the Local Area: None anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
