Good afternoon,

The Department received your Request for Extension of Time for permit 63-34349. The request mentions the possible development of a stockwater pond. As this permit authorizes in stream stockwater only, I would like to clarify that the possible pond is not associated with this permit and would require a separate permit.

Also, the request asks for a 2 year extension and you are allowed up to 5 years. If the Department approves your request of 2 years, you may not get another extension in the future. The Department encourages permit holders to avail themselves of all allowable time to develop a permit. If you would like to amend the request to 5 years, please reply to this email stating your intention and I will amend the request for you. Please feel free to contact me should you have questions or concerns.

Thanks,
Debbi
