8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The unleased portions of rights 2-2176A and 2-2405A when combined shall not exceed a maximum diversion volume of 895.5 af at the field headgate, and the irrigation of 199 acres.
13. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 02.
14. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
15. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the place of use.

**RE: APPLICATION TO LEASE WATER RIGHTS 2-2176A & 2-2405A TO THE WATER SUPPLY BANK
CONTRACT 1517**

******TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

Thank you for returning the Water Supply Bank Lease contracts promptly. Before signing the contracts, a supervisor reviews the contracts to double check the amounts, enlargement concerns, overlaps, etc. During that review, it was determined that since these rights have a combined diversion rate limit with other rights and the Department doesn't have the authority to limit other water rights that have not been offered to the Bank, the elements rentable from the Bank have changed. There is not a rentable diversion rate.

I have enclosed two new Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days. Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2026**, unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

Narrative: The Department received this application on Oct. 18, 2021. Consent from Bybee Lateral was received on January 21, 2022. The applicant wishes to place 49 acres of these rights in the Bank. 91 acres of these rights, which included the 49 being offered, were placed in the Bank in 2015. In 2017, the owner released the rights from the Bank and submitted a new lease application for 49 acres. These rights were decreed in 2009. There are no issues of forfeiture. The Bybee Lateral does not object to the portion of these rights being placed in the Bank. These rights are limited to the irrigation of 248 acres and 1116.0 af. There is a condition limiting the diversion rate with other rights: Rights 2-2083, 2-2084, 2-2176A, 2-2176B, 2-4027, 2-2271, 2-2272, 2-2405A, 2-2405B, 2-7032, 2-63, 2-10313, and 2-10503 when combined shall not exceed a total diversion rate of 14.55 cfs.
