EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

From: William Mills
Re: Evaluation of Sufficiency of Information Submitted

Application proposes to change the recorded point(s) of diversion (POD) and place(s) of use (POU) locations for eight water rights diverted from groundwater, two springs, and Oregon Creek sources used on property located on the west side of Highway 75 approximately 6.5 to 6.8 miles north and 2.3 to 2.6 miles west of the intersection of Sun Valley Rd & Hwy 75 in Ketchum. POD changes are to reflect actual locations of existing diversions. The groundwater diversions are two existing wells located on the property. The Oregon Creek diversion is located approximately 6.9 miles north and 2.9 miles west of the intersection of Sun Valley Rd & Hwy 75 in Ketchum. One spring diversion is located approximately 6.8 miles north and 2.6 miles west of the same intersection. The other spring is located approximately 6.6 miles north and 2.6 miles west of the intersection. The eight water rights authorize a total combined diversion of 0.99 cfs (0.39 cfs from groundwater, 0.22 cfs from the springs, and 0.38 cfs from Oregon Creek).

The main intent of this application is to create a 24.1 acre irrigation and irrigation from storage permissible place of use (PPU) limited to the irrigation of 14.7 acres. However, due to a shift in the Geographic Coordinate Database (GCDB) all PODs and POUs will also be updated. There is no physical change to any of the PODs. The POUs for other uses (domestic, stockwater, commercial, irrigation storage, aesthetic storage, stockwater storage, and stock water from storage) are being updated to reflect current uses on the property and correct the legal descriptions based on the current GCDB projection. This property is located in the north end of Homestead Entry Survey No. 123 and a condition describing this location in relation to the current GCDB projection has been added to all the water rights in this transfer.

The PPU's 14.7 acres of irrigation includes 0.5 acres from domestic ground water right 37-12219. This property is the result of combining multiple parcels and this domestic right was originally for the only parcel with 2 homes on it.

PODs and POU are in Water District 37. Comments were solicited from the Watermaster and Idaho Department of Fish and Game and no comments were received.

- **Authority to File:**

IDWR records indicate the applicants currently own the water rights in this transfer and the property these water rights are associated with.

- **Water Right Validity:**

Water right 37-8870 was licensed on 2/12/1999. Water rights 37-11852 & 37-11854 were decreed 1/29/2010. Water Rights 37-2168A, 37-2168C, 37-22121 & 37-22125 were decreed in the SRBA on 2/3/2010. Water right 37-12219 was decreed in the SRBA on 1/5/2001. Recent aerial imagery appears to indicate the property is irrigated and the storage pond is in use. Water right 37-11852 domestic and commercial uses are currently leased to the water supply bank. The applicants indicated those portions of the right will remain in the bank until the lease contract expires on 12/31/2024.

- **Injury to Other Water Rights:**

None anticipated.

- **Enlargement of Use:**

None anticipated.

- **Local Public Interest:**

No issues anticipated. Application was subject to public notice and protest.

- **Beneficial Use/Conservation of Water Resources:**

Proposed use is recognized as a beneficial use of water.

- **Effect on the Economy of the Local Area:**

None Anticipated.

- **Effect on Agricultural Base of the Local Economy:**
None Anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
