Attorneys for Eagles Perch Trust

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR
PERMIT NO. 81-12033 IN THE NAME OF
EAGLES PERCH TRUST

STIPULATION TO WITHDRAW
PROTEST AND PROVIDE FOR EQUAL
DIVISION OF SPRING WATER

Applicant Eagles Perch Trust, by and through its counsel of record, Norman M. Semanko of Parsons Behle & Latimer, and Protestants Robert L. Ward and Cathy M. Ward ("the Wards"), hereby agree and stipulate as follows:

1. The Wards hereby withdraw with prejudice their protest to the above-captioned application for permit no. 81-12033.
2. The Wards have filed application for permit no. 81-12041, which Eagles Perch Trust agrees not to protest or otherwise participate in the proceedings for, except as may be necessary to safeguard and further the provisions of this stipulation for the benefit of the parties.
3. The priority date of the Eagles Perch Trust application for permit no. 81-12033 shall be advanced to April 25, 2022, to match the priority date of the Wards' application for permit no. 81-12041. If such change is not made on the records of the Department, the parties agree that the two water rights will be treated for all purposes as if they in fact have the same priority date.
4. The parties agree that the available quantity of water from the spring source identified in the two water rights will be divided and shared equally, 50/50, between the two water rights at all times.
5. Two separate pipes will be installed to the spring box, one to serve each water right, and a diversion structure will be installed that ensures that the available water from the spring will be split equally between the two separate pipes. The design and construction of the diversion structure must be approved by both Eagles Perch Trust and the Wards, and the parties agree to share equally in the costs of such work, as well as future maintenance, repair, rehabilitation or replacement of the spring box, diversion structure, and other shared works, as needed. Each party will be separately responsible for the costs associated with their respective pipes from the spring box and any other individual works.
6. Immediately upon approval of their application for permit no. 81-12041 by the Department, the Wards will withdraw claim no. 81-12036, previously filed in the Snake River

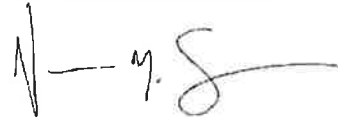

Basin Adjudication, and/or agree that the claim be recommended disallowed by the Department and decreed disallowed by the Adjudication Court. The parties agree not to file any additional applications for permit or adjudication claims for the spring.

7. This agreement shall run with the land to which the two water rights are appurtenant, identified as the place of use in the respective water rights, and shall be binding upon the parties and all future owners of those properties. The parties will record this agreement with Idaho County.

8. This agreement may be executed in counterparts.
