Application for Amendment
(For Licensing Purposes)
Water Right No. 25-13982

FOR DEPARTMENT USE ONLY

Preliminary check by KU Fee = \$100 Received by KU # C112547 Date 4/19/22

ACTION OF THE DEPARTMENT OF WATER RESOURCES

The Idaho Department of Water Resources hereby approves the above Application for Amendment for Permit No. 25-13982 with the following:

Conditions of Approval

1. The right holder shall make full beneficial use of all surface water available to the right holder. The right holder may divert ground water under this right when the surface water supply is not reasonably sufficient or is not available due to drought, curtailment by priority, or the seasonal startup and shutoff or maintenance schedule for irrigation district deliveries. The right holder shall not divert ground water under this right if use of the surface water supply is intentionally discontinued or reduced (for example abandoned, forfeited, sold, disallowed by court decree, or leased to the Water Supply Bank), or is not deliverable due to non-payment of annual assessments, without an approved transfer pursuant to Idaho Code § 42-222 or other Department approval.
2. Use of water under this right shall be non-consumptive. At such time in the future as the Director determines necessary to protect the prior rights of other users, the Director may require determination of the rate of loss within the system using a procedure approved by the Director, and may require mitigation for all system losses.
3. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
4. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
5. Commercial use is for gravel washing and is diverted before and/or after water is available from Idaho Irrigation District each year.

This amendment is issued pursuant to the provisions of Idaho Code § 42-211.

Signed this 13th day of May, 2022.

RE: Water Right Permit No. 25-13982

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit(s) referenced above prior to issuing water right license(s). By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit.

The examiner who verified your water use reported that certain elements of the permit(s) have been developed differently than described on your permit(s). Changes that do not increase the authorized use of water under the permit(s) can be requested and approved in accordance with Idaho Code § 42-211. Before license(s) can be issued, your permit(s) must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit(s):

____ Point(s) of Diversion

X Place(s) of Use

____ Other

The enclosed Application for Amendment form(s) depicts the elements of the water right(s) as they will appear on the license(s) when issued. Please review the amendment form(s) carefully. If you concur with the information presented, please sign and return the form(s) with the filing fee of \$100.00 within fourteen (14) days.

If you have any questions, please call me at (208) 497-3785.

Sincerely,

Jared Adamson
