MINIMUM REQUIREMENTS CHECKLIST

TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at idwr.idaho.gov.

Name of Applicant(s) Hagerman Wings Farm, LLC

Check whether each item below is attached (Yes) or not applicable (N/A) for the proposed transfer.

Yes N/A * Means the item is always required and must be included with the application.

- ☒ * Completed Application for Transfer of Water Right form, Part 1.
- ☒ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☒ * Application for Transfer Part 2A. Attach a [Part 2A](#) report describing each water right in the transfer as currently recorded.
- ☐ ☒ Complete and attach an Application for Transfer [Part 2B](#) for each water right for which only a portion is proposed to be changed through this transfer application.
- ☒ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☒ * Correct fee submitted with transfer application form. ([Fee schedule](#) is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-10.

- ☐ ☒ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☒ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☒ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s). **
** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☒ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☒ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☐ ☒ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at idwr.idaho.gov/water-rights/transfers/resources.html.
- ☐ ☒ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☒ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☐ ☒ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System ([GIS](#)) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. If some or all of any right is leased to the Water Supply Bank, you must also show the the specific location and/or acres to be idled at the new, proposed place of use to satisfy lease requirements.
- ☐ ☒ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see [fee schedule](#).
- ☐ ☒ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☐ ☒ #9 Water Supply Bank information for all rights proposed for transfer and currently leased to the Bank. ([Attachment WSB](#))
- ☐ ☒ #10 Other. Please describe: _____

**PROPOSED AMENDMENT OF WATER PERMIT
PERMIT NO. 36-17169**

IDAHO POWER COMPANY, PO BOX 70, BOISE, ID 83707-0070 filed an application to amend permit no. 36-17169 on 04-08-2022. Application for Amendment of Permit proposes adding a second point of diversion (well) for irrigation purposes under permit 36-17169. Both points of diversion are located approximately 4.4 miles north and 4.3 miles east of Buhl. The original permitted flow rate of 0.27 cfs will not change with the amendment.

RE: Transfer No. 86169
Water Right No(s). 36-7081, 36-7172, 36-7229, 36-7233

Dear Applicant(s):

The Department of Water Resources has received your water right transfer application. Please refer to the transfer number referenced above in all future correspondence regarding this transfer.

A legal notice of the application has been prepared and is scheduled for publication in the **TIMES NEWS, IDAHO STATESMAN, LEWISTON TRIBUNE and POST REGISTER on 6/2/2022 and 6/9/2022**. Protests to this application may be submitted for a period ending ten (10) days after the second publication. Any protest against this application must be filed with the Department of Water Resources, together with a protest fee of \$25.00 for each application, on or before **June 20, 2022**.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the approval document.

Please contact this office if you have any questions regarding the application.

Sincerely,

Denise Maline

RE: Transfer No(s). 85829, 86169 and 86170 (Hagerman Wings Farm LLC)

Dear Matt:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right application. You can find a copy of the application at:

<https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR can finish reviewing an untested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Denise Maline

No changes are proposed for the points of diversion. Proposed and existing POUs are located approximately 0.5 miles to 1.7 miles west and 0.2 miles south to 0.7 miles north of the intersection of Salmon St. and Hwy 30 in Hagerman.

For additional information concerning the property location, contact Southern Region office at (208)736-3033. Protests may be submitted based on the criteria of Idaho Code Sec. 42-222. Any protest against the proposed change must be filed with the Department of Water Resources, Southern Region, 650 ADDISON AVE W STE 500, TWIN FALLS ID 83301-5858 together with a protest fee of \$25.00 for each application on or before **June 20, 2022**. The protestant must also send a copy of the protest to the applicant.

Re: Transfer Proposal

Application for transfer proposes changing the place of use (POU) for four Billingsley Creek wildlife water rights (27.7 cfs combined) to coincide with current use of those rights. No changes are proposed for the points of diversion (PODs). Proposed and existing POUs are located approximately 0.5 miles to 1.7 miles west and 0.2 miles south to 0.7 miles north of the intersection of Salmon St. and Hwy 30 in Hagerman. All PODs and POUs are located in Water District 36A and Watermaster comments will be solicited.

Re: Fee Evaluation

Filing fees charged for transfer application #86169 were based on the on the current transfer fee schedule and included \$2340.00 for the 27.7 cfs being transferred in the application. \$2420.00 was paid, creating an over payment of \$80.00 which is to be applied to a portion of the fee for transfer #86170 which is a companion transfer to this transfer application, see email in file from Charles Brockway dated 5/19/2022 (Receipt No. S039002).

Bill,

None of the rights are being split, but only a portion of 36-99 and 36-7172 are being changed (the mitigation, stockwater, and domestic places of use will remain unchanged). In a case like that, where only a portion of a right is being changed (but not split off), it appears to me from the Instructions that 1.B. is to list only the changed part after the change, and 2.B. is to list the changed part as recorded. Anyway, that's neither here nor there at this point. Attached are revised pages 3 and 5 for each transfer, page 3 being revised to show all of the uses including those not being changed, and page 5 being blank in that 2B is no longer needed.

PPU is 488 acres, 2 acres in SENE16, change made to grid.

The maps you made are fine.

The funds transfer you propose is acceptable.

Thanks,

Chuck

Subject: Hagerman Wings Farms Transfer Applications

Chuck,

There are a few minor issues with the Hagerman Wings Farm transfer applications that need to be addressed before they can be forwarded for advertising:

Transfer #1: 85829- Irrigation POU for water rights 2-10338, 36-98, 36-15467 & 36-99

On page 3, Section B1. The box is checked for "Part" for right 36-99, indicating that 36-99 is to be split and Part 2B on page 5 was also completed. Is your intention to split the irrigation use from the mitigation use? Since, the mitigation by non-use is associated with the Hagerman Wings Farm property, it seems to us that it should probably continue to be associated with water right 36-99. I'm not sure what the intention is here. Either way, it would be best to update Part 1B. on page 3 to list all the uses associated with right 36-99 and reflect the total flow rate on the total authorized under rights line. Let me know what your intention is here.

Another issue is the acres listed in the POU grid on Page 3 Part 4 do not match the acre totals. The Grid adds up to 487.4 acres and the total indicates the PPU should be 488 acres. The box on the grid for the SENE1/4 of Section 16 indicates there are 1.6 acres, while the total for that row indicates maybe it should be 2.0 acres?

Please let me know if the permissible place of use should be 488 acres or 487.7 acres and how many acres should be listed in the grid box for the SENE1/4 of Section 16.

Transfer #2 – 86169 – Wildlife POU for water rights 36-7081, 36-7229, 36-7172 & 36-7233

Again, the "Part" box was checked for rights 36-7172 and 36-7233 and part 2B page 5 was filled out for 36-7172. Are you wanting to split these rights? As before, please indicate if you are splitting rights 36-7172 & 36-7233 and as before all of the beneficial uses under a right should be listed on part 1B.

The POU map provided was nominal in that it selected all of each 40 acre tract proposed in the transfer application and didn't exclude properties owned by other parties. I have attached an updated POU map that selects the properties owned by Hagerman Wings Farms within the tracts selected in the transfer application. Please review the map and let me know if it is acceptable to you and your client.

Transfer #3 86170 – Fish Propagation POU for water right 36-16889

Same story with the POU map as in the wildlife transfer application. I have excluded properties owned by other parties, please review the attached POU map, and let me know if the POU map works for you and your client.

Additionally, Corey requested an email authorizing the Department to apply the additional \$80.00 paid under receipt S039002, (check No.16729 for \$2420.00 for transfer #86169 proposing the transfer of 27.7 cfs to change the wildlife POU, for which the total fee is \$2340.00) to transfer #86170 proposing the transfer of 2.0 cfs for Fish Propagation under water right 36-16889 (total fee \$580.00, \$500.00 paid under receipt S039223, check #7813 paid by Hagerman Wings Farm, LLC).

Your response to these issues is appreciated and will facilitate further processing of these three transfer applications,

Sincerely,

Bill

Re: Application for Transfers / Hagerman Wings Farm, LLC

Dear Bill:

I am in receipt of your letter of February 15, 2022, in which you request additional information for the above-referenced applications.

With regard to the irrigation transfer, the attached "206" map shows the PPU and the specific irrigation of 184.0 acres from the irrigation water rights delivered through the Sands Ditch. In addition, the attached ownership change form, deed, and fee should suffice to place the ownership of 36-99 in the name of Hagerman Wings Farm.

With regard to the wildlife applications, the POU for 36-8317 and 36-16889 (delivered via the Big Bend Ditch) has been limited to the SWSW Section 15, SESE Section 16, and NESE Section 16. The POU for all other wildlife rights (delivered via the Sands Ditch) includes all areas that have ponds or may have ponds. The attached ownership change form, deed, and fee should suffice to place the ownership of 36-7172 and 37-7233 in the name of Hagerman Wings Farm.

On the issue of pond areas, the Department requested a delineation of the historic area of ponds relative to the current area. To delineate the historic pond area, the applicant hired an agricultural land use consultant to make on-site delineations and area calculations using a GPS unit. The result is the attached map and acreage table entitled "Old Pond Map," confirming a total pond area of 47.5 acres. The former ponds on this map are now within irrigated lands, but the depressions are still in the ground and Mr. Shaw has stated that you are welcome to come out and look for yourself. The second map entitled "Existing Wildlife Ponds" depicts the ponds as they exist today, with a total area of 39.7 acres. This analysis demonstrates that there will not be an increase in pond area or consumptive use due to the proposed transfer. I would like to reiterate that the total wildlife usage is unrestricted as to pond area or volume.

Finally, I understand the Department wishes to have two transfer applications for the wildlife ponds: one for the rights delivered via the Sands Ditch and one for

the rights delivered via the Big Bend Ditch, for a total of three (3) transfer applications. These two applications are enclosed as requested, but I do not understand the need to split this transfer. In fact it seems to me the entire project – both irrigation and wildlife – could be done with a single application. As such, I will not expect any increase in fees due to this bifurcation.

RE: Applications for Transfer for Hagerman Wings Farm, LLC

Dear Mr. Brockway:

This letter is in reference to two transfer applications that you submitted to the Department for Hagerman Wings Farm, LLC on 01/21/2022.

The first transfer application, which I'll refer to as the irrigation transfer application (#85829), requires the submission of additional information before it can be considered complete. A "206" map identifying the specific 184 acres to be irrigated within the proposed 488 permissible place of use is required. Additionally, while not required, *✓ Done* changing the ownership to Hagerman Wings Farm LLC on water right 36-99 can be accomplished by either: the submission of an additional fee (\$25.00) and a copy of a conveyance document to change ownership through the transfer process; or as we discussed in our meeting on 2/14/2022, filing a Notice of Change in Water Right Ownership along with a conveyance document and the appropriate fees. I will hold the transfer application for thirty days to allow sufficient time to provide the requested map before returning the application as incomplete and initiating a refund of the filing fees (\$1540.00 paid, receipt #S039003).

The second transfer application, which I will refer to as the wildlife transfer application is being returned to you as we discussed during our meeting on 2/14/2022. I will wait thirty days to allow sufficient time for the submission of replacement application(s) before initiating a refund of the associated fees (\$2420.00 paid, receipt #S039002).

If you have questions or concerns regarding either of these applications, please feel free to contact me by phone, (208) 736-3033, or by email, william.mills@idwr.idaho.gov.

Re: Application for Transfers / Hagerman Wings Farm, LLC

Dear Bill:

I am in receipt of your letter of January 4, 2022 under which you returned the above-referenced transfer applications for correction. With this letter I am resubmitting the applications, and offer the following clarifying comments.

With regard to the irrigation transfer:

The PPU acreage description was inadvertently omitted from the application. The PPU boundary is illustrated on the drone map and totals 488 acres. Within this PPU, the irrigation water rights will allow 184 acres. Please be aware that in addition to his private water rights, the applicant has a considerable number of shares of irrigation water in a mutual company that are not part of this transfer package and which supply water for the balance of current irrigation.

With regard to the pond transfer:

- The fee was based on 29.87 cfs, which is the total 32.7 cfs less the 2.83 cfs of irrigation under 37-99 which is already included in the basis for the fee for the irrigation transfer. On the subject of fees, I would like the Department to consider applying the following logic to the fee calculation: Two applications are being filed – one for irrigation and one for wildlife – because it is significantly more convenient and clearer that way. However, I see no reason why a single transfer could not be filed that incorporated all rights together. In that case, the fee for the total rate of 43.25 cfs would be \$2,940. Please consider adopting this fee amount since two applications are being filed for convenience reasons only.
- I have modified Lines 1 and 2 to show 32.7 cfs.
- All water rights will be in the name of Hagerman Wings Farm LLC. The intent is to change the ownership on the Department's records in the transfer process. The transfer applications have now been signed by Beverly Shaw in addition to John Shaw.

- The POU table inadvertently excluded the 40s you noted. The correct 40s have now been listed.
- You ask the question, "How can additional wildlife use be added to new quarter-quarters in a proposed transfer under decreed water rights with defined boundaries?"

First, every decreed water right has a defined place of use. That does not preclude the water right holder from modifying the place of use in accordance with law. Adding a quarter-quarter to the authorized place of use is not amongst the legal criteria that determines enlargement.

Second, unlike irrigation rights and some wildlife rights, these particular wildlife rights are unrestricted as to consumptive use, diversion volume, or pond acreage. That is how they were decreed in the Snake River Basin Adjudication (at the Department's recommendation). The beneficial use authorized by the rights is "wildlife," and the only limit to that beneficial use is the diversion rate.

Third, no proposal is being made to change the nature of use; therefore, in accordance with Paragraphs 3(13) and 5d(5) of the Department's transfer memo, no analysis of consumptive use is required. Such an analysis is only required when the nature of use is proposed to be changed; e.g. an irrigation right being changed to commercial.

Fourth, even if the Department could somehow disregard the transfer memo and investigate the historic use anyway, it would find sufficient justification for the current use.

I would like to renew my request for meeting with you, Corey Skinner, Nathan Erickson, and Gary Slette to review the applications and answer any further questions that may arise and determine what additional information may be required.

Cordially,

Charles G. Brockway, P.E.

RE: Applications for Transfer for Hagerman Wings Farm, LLC

Dear Mr. Brockway:

This letter is in reference to two applications for transfer that you submitted to the Department for Hagerman Wings Farm, LLC on 12/28/2021. Review of the applications indicates they are incomplete and require amending before they can be further processed. The items that need to be addressed are as follows:

Both applications, as submitted, require an additional signature from Beverly Shaw. Water rights 36-7172, 36-7233 (in the "pond" transfer application) and 36-99 list John Shaw and Beverly Shaw as current owners ("irrigation" transfer application). The proper fee was not submitted for the "pond" transfer application (PTA). On page 3 Part B. Lines 1 & 2, total cfs was listed as 29.87 cfs. The actual total is 32.7 cfs for the six water rights in the PTA. Another \$120.00 is required for the actual 32.7 cfs being transferred, making the total fee for the PTA \$2540.00. Also, as indicated, Lines 1 & 2 of Part B on page 3 need to be updated to reflect the actual total 32.7 cfs proposed to be transferred in the application. Typically, water rights in a common system used on the same lands are under the same ownership as the landowner. If it is desired to have Hagerman Wings Farm LLC own some of the rights, and John and Beverly Shaw own other rights, a separate agreement should be included allowing for the owner of the rights to use the rights on someone else's land and clarifying/acknowledging the actual ownership of the rights. As an alternative, Hagerman Wings and the Shaw's may want to update the ownership of the rights prior to the transfers.

Additionally, the Place of Use (POU) listed on Page 3, Part B. Line 4 does not match the provided map. The suggested pond POU on the map adds three additional quarter-quarters that are not listed on the grid on Page 3, Part B. Line 4 (Sec. 15 SENW, Sec. 16 NESE & SESE). For a transfer application to be acceptable for processing, these two items must match. Which brings me to a very important question: How can additional Wildlife use be added to new quarter-quarters in a proposed transfer under decreed water rights with defined boundaries? Without drying ponds up in one tract to move that use to another tract, it seems to be an enlargement of the water rights in the application (additional consumptive uses developed).

In regard to the irrigation transfer application (ITA), on Page 3, Part B. Line 4, the POU grid is blank except for an XXX* in the total acre box of the grid and a footnote stating

*Irrigation limited to 220 acres. The Department cannot consider an application complete and acceptable for processing without this information. It should be noted that the four rights in the ITA, when combined only authorize the irrigation of 184 acres. The included map identifies 249.6 acres irrigated in 2021.

I am returning both applications for transfer to you as incomplete. If the applications are not resubmitted within 30 days of the date on this letter with the appropriate corrections and fee (PTA application), the currently submitted application filing fees (\$2420.00, receipt S039002 & \$1540.00, receipt #39003) will be refunded to you.

Please feel free to contact me by phone, (208) 736-3033, or by email, william.mills@idwr.idaho.gov, if you have any questions.

Dear Corey:

Enclosed please find two Applications for Transfer for the above-referenced property. One transfer pertains to the irrigation rights and the other to the rights covering the wildlife ponds on the property. The purpose of both transfers is to align the water rights with actual usage on the land. In support of this effort, drone flights were made that allowed very accurate delineations of both irrigation and pond areas.

Application fees of \$1540 for the irrigation transfer and \$2,420 for the pond transfer are enclosed.
