Water Right: 65-24060

Author: mwilliams

Subject: Current Owner Update

On 05/23/2022 it came to the departments attention that during the ownership split processes the current owners were mixed up for water rights 65-24059 and 65-24060. This was fixed to reflect the correct owners of each water right and new proof reports were send to each water right holder.
