 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.

Narrative: The Department received these applications on November 23, 2021. The applicant listed water rights 65-2448 and 65-2604 on the applications but these rights were split in May of 2020 into 65-23923 and 65-23924. The parents of these rights were decreed in 2002. It appears irrigation took place as recent as 2017. The rights were placed in the Bank in 2020-2021. There are no issues with forfeiture. These rights have no combined conditions but are for the same 13.4 acres so they need to be rented together. The applications listed the lease duration as 2020-2025 but the rights were in the Bank until the end of 2021. I assume they want 5 years so the lease period will be 2022-2026. These rights are currently within WD 65.

MEMORANDUM

To: Water Right File No(s). 65-2448, 65-2604, 65-23923 & 65-23924
From: Mary Condon, WSB Coordinator
Date: March 8, 2022
Re: Lease Application 2208

Lease applications received 11/2021 for water rights 65-2448 and 65-2604, but the map of acres offered is for acres under split rights 65-23923 & 65-23924. Request for clarification was sent to Drake's Crossing 12/2021, but they have not yet returned the requested clarification. The same occurred with lease application 1705, received in 2020 for 2020 and 2021, along with the change in ownership which split the rights. Lease applications for 65-2448 and 65-2604 were processed for 65-23923 & 65-23924.

Lease application 2208 for water rights 65-2448 and 65-2604 will be moved to water right numbers 65-23923 & 65-23924. Additionally, lease application requested 2020 to 2025, but the previous lease expired in 2021. Dates will be moved to 2022-2025.
