9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

Additional Ownership Information to Support WSB Applications

Water Right Nos: 31-11998, 31-12000, 31-12002

The ownership on the water rights relative to this transfer application are not accurate. Water rights 31-11998, 31-12000, and 31-12002 are shown to be owned by L3 LTD Partnership on the current water right reports. L3 LTD Partnership has never owned these water rights.

Right 31-11998 is a split of parent right 31-7391. This right was developed by Ralph Bean and Lois Bean and assigned to Duane & Yvonne Allen when it was a permit. It was licensed to the Allen's, claimed by them, and then decreed to them in the SRBA.

Right 31-12000 is a split of parent right 31-2340. This right was developed by Lois Bean, licensed to her, and then claimed by and decreed to Duane & Yvonne Allen in the SRBA.

Right 31-12002 is a split of parent right 31-2383. This right was developed by Ralph Bean, licensed to him, and then claimed by and decreed to Duane & Yvonne Allen in the SRBA.

All three of these split rights were included in a Notice of Change in Water Right Ownership filed in 2003 by L2 LTD Partnership to change ownership from Duane & Yvonne Allen. However, the deed that was submitted was only the first page of a deed that was unsigned and unrecorded. Although L2 Limited Partnership really was buying the property, they had not yet received an executed deed. Based on the water right report of the parent rights, it appears that the ownership was indeed updated to L2 LTD Partnership.

In 2007, an Application for Transfer No. 73908 in the name of L3 LTD Partnership was filed. The deed that was provided with the transfer is the same unrecorded deed that was submitted with the ownership change for L2 LTD Partnership. In the final transfer approval, ownership of all portions of the rights involved in the transfer were changed to L3 LTD Partnership, who has never owned the property under water rights 31-11998, 31-12000, and 31-12002.

It appears that the ownership of the water rights should still be in the name of Duane & Yvonne Allen. A copy of the deed from Ralph and Lois Bean's estate to the Allen's is attached. It was only recently signed due to an oversight when the Allen's purchased the property from the Beans.

The Allen's are currently selling the place of use to L2 Limited Partnership. They are holding the note to the property and therefore, there is no deed conveying ownership to L2 Limited Partnership. The deed provided to IDWR with the ownership change form is a copy from the purchase documents that will be signed when the purchase price is fully paid. The Allen's have given their authorization for L2 Limited Partnership to make changes to the water rights. See Attachment #3.

Authorization for Water Right Applications

We, **Duane and Yvonne Allen**, currently own the property described as the SW1/4 and E1/2 of Section 29, Township 8 North, Range 33 East, as shown on Exhibit 1 attached. L2 Limited Partnership is purchasing this property from us. We are financing L2 LTD Partnership and a deed will be issued to them as soon as the debt has been fully paid. Until that time, the property will remain in our name on all county records. However, L2 LTD Partnership manages and operates the property, including all irrigation, agriculture, maintenance, taxes, and any other costs or responsibilities relative to the property. This letter grants all authority to L2 LTD Partnership to file any and all applications relevant to water rights for this property, including, but not limited to water right nos. 31-11998, 31-12000, and 31-12002. This may include transfers, water banking, or new applications for permit as may be required to update, correct, change, or maintain the water rights.

FOR WATER RIGHTS 31-11888, 31-11998, 31-12000 & 31-12002**

Dear Lessor:

Water rights 31-11888, 31-11998, 31-12000 & 31-12002 were leased into the Water Supply Bank (Bank) as of January 1, 2022, in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The rights will automatically be released from the Bank on **December 31, 2025**, unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contract upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

The Department is returning the lease application for water right 31-11884. Water right 31-11888 will cover the 6 acres offered to the Bank. A refund of \$250 has been requested and will be sent to Rocky Mountain Environmental under separate cover from the State Controller's Office.

Narrative: The Department received these applications on June 29, 2021 for the 2021 to 2025 seasons. The current owner of these rights are Duane and Yvonne Allen. They are financing L2 on the purchase of this land and will issue a deed when the debt has been paid in full. The Allen's have give L2 authorization to file any applications relevant to these water rights. 31-11998 was licensed in 1997 and 31-12000 & 31-12002 were decreed in 2002. The applicant wishes to place 3.2 acres in the Bank. These acres are some of the pivot corners. According to L2, they irrigate these corners early in the season with handlines, take the first crop of hay and only irrigation the pivots. It appears that some irrigation took place early in 2017 & 2018. These rights together are limited to a total diversion rate of 8.92 cfs, total diversion volume of 1546.6 af and 446 acres. The rental of these rights will be reduced according to the limit. These rights are currently within WD 110.

Jean,

See the attached Lessor Designation Form signed by the Allens.

The Newmans indicated that they irrigated these corners in 2017 and 2018. Looking at the 2017 NAIP, they do appear to be irrigated. Not necessarily to the same extent as under the pivots, but I can see a distinct difference between the vegetation in the corners versus nearby corners that I know were not irrigated. It looks as if at the time this photo was taken the hay had already been harvested for the first crop. The Newman's practice was to irrigate earlier in the season with handlines, take a first crop of hay and hope for the best the rest of the season. But they were definitely irrigated.

Thank you.

Also, after reviewing aerial imagery, it appears that the pivot corners that were offered to the Bank have not been irrigated in the last 5 years. Please provide evidence that these corners have been irrigated in the last 5 years or the applications will be returned unprocessed. Please provide the requested information within 14 days. These applications were on hold pending the approval of the transfer that was filed at the same time. These rights are now in the name of Duane and Yvonne Allen. Do the Allen's wish to continue with the WSB Lease on these rights? The Department will need documentation stating that the Allen's wish to proceed with the lease and a Lessor Designation form. The lease will be in the name of the Allen's.
