

MEMORANDUM

Date: April 14, 2022
To: Transfer 85880
From: Brian Normandeau
Re: Review & Evaluation of Sufficiency of Information

This transfer proposes changing the place of use for right 11-7482. The stockwater place of use currently includes the area along the Miller Ditch where it crosses the applicant's property, and six additional trough locations each in a unique QQ. The proposed changes are to accommodate two additional troughs in two QQs not currently part of the POU.

Authority to File:

The applicant and signatory of this transfer is Scott W. Hirschi. The current water right owner is Hirschi Family Living Trust. The property covered by this water right at the current and proposed places of use are Hirschi Family Living Trust and Hirschi Wag Property, LLC, a Utah limited liability company. Scott W. Hirschi is the trustee for Hirschi Family Living Trust, and the registered agent for Hirschi Wag Property, LLC.

Water Right Validity:

The right included in this transfer is based on a statutory claim. The claim was originally filed in 2002 and amended in 2018. This right was involved in Transfer 82391, which was approved 8/15/2018, and made similar changes to the place of use as those proposed in this transfer. Although the validity of this claim has not been confirmed, the elements seem reasonable and well documented. There is no apparent evidence that this right has been forfeited due to non-use. No issues identified.

Injury to Other Water Rights:

The changes proposed are to the place of use only, and do not appear to impact any other water users. The watermaster for Water District 11 did not provide comment on the proposed changes. No issues identified.

Enlargement of Use:

The quantity of water diverted under this right will not be changed by the transfer. The applicant is not increasing the number of stock being watered. The additional troughs are to improve pasture rotation options. No issues identified.

Local Public interest:

No Issues identified.

Beneficial Use/Conservation of Water Resources:

No Issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
