- c) I oppose approval of this application for the following
reasons:
- d) **X** Additional comments:
As the watermaster of WD29H for 2 seasons, I can verify that Mr. Webster has diverted all of his water from a point of diversion that appears to be in the NWNW Sec. 11 12S37E in Bannock County. His current point of diversion is located just upstream of WR 29-2396. As long as Mr. Webster measures the water he pumps with his magnetic flow meter and measures any additional water he diverts from Marsh Creek for his ditch with a flume as he states on his application, along with control works for the flume, I have no objections to his proposed change.
