TOTAL ACRES _____

- B) If water is used for purposes other than irrigation, fully describe the use. Be specific.

Spring water is used for domestic purposes at one home on our property and for up to 450 dairy cows. Commerical and stockwater uses are associated with the dairy.

NOTE: Include here the type and number of stock watered: 450 dairy cows

7. **Remarks:** Original claim filed by Craig Campbell in October 2001 included two errors. First, Campbell included domestic use at a second home connected to the spring. Campbell did not own that home or the underlying parcel at the time and should not have included that property in the claim. Second, the claimed place of use was in error. The dairy and home are located in the SENW and NESW of Section 20. Campbell's map showed the correct location, but the claim listed the wrong quarter-quarter. This amendment addresses those two errors.

8. **Map --** Attach an 8½"x11" map clearly identifying the point of diversion and the place of use by 40-acre subdivisions, section, township and range of the public land survey system. (A photocopy of a USGS 7½ minute topographic quadrangle map is preferred.) Attach an **aerial photograph** of the place of use if available.
