Gentlemen:

Mr. Bagley's letter of January 5 is received.

We have considered your application for enlargement of the fish hatchery on Spring Creek and inasmuch as the proposed addition is to be merely a part of the present hatchery, we believe it is unnecessary to issue a separate special use permit as the same results can be secured by simply amending the one now in existence. This letter should therefore be considered a part of the permit issued you dated July 9, 1941 and amends the description of the occupied lands to include a strip 5 rods wide commencing 4 rods above the point where Spring Creek leaves the Caribou National Forest in Section 32, T. 7 S., R. 46 E., Boise Meridian and continuing up Spring Creek 80 rods enclosing 2 1/2 acres. This additional land is to be fenced and occupied for the purpose of constructing fish rearing ponds.

The special use permit is not otherwise amended.

Very truly yours,

I. M. VARNER, Forest Supervisor
