A. PURPOSE OF TRANSFER

1. ☐ Change point of diversion ☐ Add diversion point(s) ☒ Change place of use
☐ Change nature of use ☐ Change period of use ☐ Other _____
2. Is this a transfer for changes pursuant to Idaho Code § 42-221.O.8?
 If yes, ☐ attach an explanation and any supporting documentation labeled as **Part 1A.2**.
3. Attach additional pages if necessary and label it **Part 1A.3**.
 See attached.

Part I.A.3 Purpose of Transfer

This transfer application proposes to re-arrange the place of use for my water rights to avoid stacking or combining my rights with any water rights held by Sunset Farm & Ranch LLC. Currently, my rights are appurtenant to land owned by Sunset Farm & Ranch. Recently, Sunset created a permissible place of use for its water rights and rearranged its irrigated acres. Based on the permissible place of use created by Sunset, the Sunset water rights would overlap with my rights.

Consistent with the Preliminary Order issued by the Department in Transfer 83745, I am moving at least 135 acres of my rights to a different location to avoid stacking the rights with rights held by Sunset.

This transfer application proposes to confine water rights 34-10680 and 34-13414 entirely on my property and adjust the combined rate and volume limits for all of my rights to fully segregate water rights 34-10680 and 34-13414 from the other rights.

Currently all of my rights bear a combined rate limit of 12.98 cfs and a combined annual diversion volume of 2,475 acre-feet. After the transfer, water rights 34-10680 and 34-13414 will bear a combined rate limit of 3.20 cfs and a combined annual diversion volume of 800 acre-feet. The remaining rights (34-7149, 34-7181, 34-7225 and 34-12421) will bear a combined rate limit of 9.78 cfs and a combined annual diversion volume of 1,675 acre-feet.

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

No change in points of diversion. All points of diversion are regulated by the watermaster for Water District 34 and are equipped with measuring devices.

- b. Who owns the property at the point(s) of diversion? N/A

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

Not changing points of diversion.

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?

If yes, ☐ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: N/A Water rights are in my name, but are partly appurtenant to land owned by Sunset Farm & Ranch LLC. This transfer will not change the partial overlap with Sunset land.

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?

If yes, ☐ complete Attachment WSB.

- e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

This transfer has been filed to move my rights from property owned by Sunset Farm & Ranch LLC to avoid any overlap with the Sunset water rights. Although my rights still overlap with Sunset's permissible place of use, they do not overlap with Sunset's irrigated acres within the permissible place of use.

- f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

Ground water rights are pumped from the same well as right 34-7075. Big Lost River rights are delivered through the Arco Canal.

- g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- | | | |
|-------------------------------------|-------------------------------------|---|
| ☒ | ☐ | undergone a period of five or more consecutive years of non-use, |
| ☐ | ☒ | currently leased to the Water Supply Bank, |
| ☐ | ☒ | currently used in a mitigation plan limiting the use of water under the right, or |
| ☐ | ☒ | currently enrolled in a Federal set-aside program limiting the use of water under the rights? |

If yes, describe:

Most of the rights included in the transfer are junior and are rarely available. I have irrigated as many acres as possible given the water that is delivered, after shrink.

****Water rights 34-10680 and 34-13414 will be confined to my property.**

Label it **Attachment #7b**.

If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

If any part of the irrigation water right is leased to the Water Supply Bank, you must also specify the location and number of acres that will remain idled for the duration of the lease contract at the new, proposed place of use.

B. CHANGES IN NATURE OF USE (WaterBalance)

- ☐ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a**.

C. PLACE OF USE CHANGES TO SUPPLEMENTAL IRRIGATION RIGHTS

- ☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b**.

Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above:
