RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality monitoring and/or permitting requirements administered by the Department of Environmental Quality or the Department of Agriculture.
10. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable county zoning and use ordinances.
11. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
12. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 130.

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
36-17180	Stock/Commercial	0.12	20			0.12	20	
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.12	20	
						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

N/A

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient,

attach a separate page and label it **Attachment 4C**:

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 36-17180 AGREEMENT 601**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$400.00 per year was calculated based on the current rental rate of \$20.00 per acre-foot times a diversion volume of 20 acre-feet.

Please send a check for \$400.00 for 2021 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing. An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Pursuant to the Water Supply Bank Rules, 90% or \$360.00 of the rental fee will be paid to the lessor(s) and 10% or \$40.00 will be retained by the Department to offset administrative costs for **2021**.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Amanda Johnson-Veibell

MEMORANDUM FOR AGREEMENT 601

To: Rental Application No. 2220, Water Right 36-17180
From: Phill Hummer
Date: 01/11/2022
Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: On December 3, 2021, IDWR received an application from Heather and Wayne Brown to rent 0.12 cfs and 20.0 af of ground water for stock water and commercial purposes. The proposed water use is for the month of December 2021. The application was reviewed and processed as quickly as possible but it is likely any approval, if issued, will be completed after the proposed time period of use due to the timing of when the application was received.

AUTHORITY TO FILE: Rental application no. 2220 listed the applicants as Heather Brown and Wayne Brown. Greg Sullivan of Brockway Engineering is listed as the consultant. Both applicants signed the application form. Overlapping water rights at the place of use are currently owned by Heather and Wayne Brown (according to current records). There are no concerns about authority to file the application.

WATER RIGHT VALIDITY: Applicants propose to rent water right 36-17180. Transfer no. 84546 was approved in 2021 splitting a portion of parent right 36-7418 and changing that portion in use for a dairy. Right no. 36-17180 was leased into the bank in 2021 with the intent of rental by the applicants. There are no concerns about the validity of right 36-17180.

INJURY TO OTHER WATER RIGHTS: The proposed use of water right no. 36-17180 is diversion and use within the ESPA ground water area. The applicants submitted ETRAN modeling showing the proposed use does not impact surface water reaches above threshold levels.

The proposed POD are also points of diversion for rights 36-17090, 36-17091, 36-17092, 36-14147, 36-15739, and 36-15743 according to Department records. The addition diversion of 0.12 cfs and 20 af is unlikely to have an effect of nearby ground water well. Especially since the season of use is only for the month of December 2021.

ENLARGEMENT OF USE: A 0.12 cfs and 20 af portion of the stock water and commercial use of right 36-17180 was leased into the bank to facilitate this rental. 0.12 cfs and 20 af are proposed for rental for stock water and commercial use. There are no enlargement concerns.

LOCAL PUBLIC INTEREST: The rental of water not being put to beneficial use maximizes the use of water within the State of Idaho. The use of ground water in dairies is within the local public interest if that use does not injure existing rights.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The requested amounts of 0.12 cfs and 20 af appear reasonable for dairy use. The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The proposed points of diversion are within Water District 130 and the Southern Region area of expertise. Comments from Nathan Erickson and Corey Skinner were requested on 1/11/2022.

Re: Morgan and Brown Water Supply Bank Applications

Dear Ms. Condon:

At the request of the local Water Master, Cody Morgan proposes to lease a portion of water right 36-17180 to the Idaho Water Supply Bank for 2021. Water right 36-17180 has a beneficial use of stock and commercial water. It is proposed to lease a 0.12 cfs or 20.0 acre feet portion of 36-17180 to the Water Bank.

Heather and Wayne Brown desire to rent the 0.12 cfs and 20.0 acre feet of stock and commercial water from water right 36-17180 for the year 2021. The ESPA Model analysis indicates that no mitigation is required for the rental.
