3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

13 **Narrative:** The Department received this application on December 17, 2021. The applicant wishes to place the irrigation portion of this right in the Bank. The right was decreed in 2011 and has been in the Bank since 2017. The right was severed from the land when it was gifted to the school district in 2003. The water is delivered through the Hiawatha Canal who requested a 20% hold back for conveyance losses. A memo dated April 13, 2021 touched on the potential injury issue. The POU for this right has continued to be irrigated under existing rights. This right authorizes water for irrigation at 0.025 cfs/acre from the Big Wood River. If this right were made rentable it would unstack the irrigation from the overlapping municipal right and result in twice the amount of irrigation within a moratorium area, which could result in injury. So, this right will be unrentable.

*Re: Blaine County School District: Water Rights 37-183A, 37-298C, 37-334E,
37-577BX and 37-21114*

Dear Sir or Madam:

The purpose of this letter is to respond generally to water rights being leased to the Water Bank, which are conveyed in the Hiawatha Canal ("Canal") by the Hiawatha Canal Company, a.k.a. The Hiawatha Canal Water Users Association of Lateral or Laterals ("Canal Company"). For the reasons outlined below and, on the conditions, requested, the Canal has no objection to the aforementioned water rights being placed into the Water Bank.

The Hiawatha Canal Company is concerned about the amount of water being removed from the Canal and placed in the Water Bank by various water right holders. Generally, at this time, the Canal Company does not object to water rights conveyed in the Hiawatha Canal being placed in the Water Bank provided that if the water rights are leased to parties outside of the Canal, then the Water Bank should require twenty percent (20%) of the right be left in the Canal as conveyance loss. I suggest that the Department place a condition on the leases to this effect.

Providing you some historical perspective, the Canal Company filed for mitigation (conveyance loss) rights in the adjudication for rights that had been forfeited or abandoned out of the Canal. The Department agreed that the conveyance loss in the Canal was twenty percent (20%), and therefore, entered recommendations accordingly. See e.g., water rights 37-22630, 37-22631, 37-22632 and 37-22633. This conveyance has been recognized by the Idaho Department of Water Resources in similar transfers. Leaving twenty percent (20%) of the leased rights in the Canal will ensure that all rights in the Canal continue to be delivered without injury to water right holders in the Canal.

As a condition of being leased, the Canal Company requests:

1. The Canal Company does not presently object to the aforementioned water rights being placed in the Water Bank, provided that twenty-percent (20%) of the right is left in the Canal as conveyance loss; and
2. The Canal Company would like to be notified if the water rights are eventually released from the Water Bank, or if the Water Rights are being leased again to the Water Bank after the expiration of the lease period.

Thank you in advance for responding to this letter and addressing our concerns. If you have any questions, please do not hesitate to call me.

Sincerely,

HIAWATHA CANAL COMPANY
