1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

Water rights **61-1235861-12359, 61-12355, 61-12354, 61-12357 & 61-12356** were leased into the Water Supply Bank (Bank) as of January 1, 2022, in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contract upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

Subject: WSB Apps for Review

Hey guys,

Here are 2 leases and 2 rentals for the WSB. The leases are two separate suites of splits from the same parents. The rentals propose to use some of the same PODs as the water rights authorize and the irrigation is essentially being moved to parcels adjacent to the water right POU so I don't really see much cause for concern. But, if there is something you guys are concerned about please let me know.

Thanks

MEMORANDUM

TO: Water Rights 61-12354 through 61-12359
FROM: Cody Parker
RE: Evaluation of WSB Lease Application 2155
DATE: January 25, 2022

WSB Application 2155 proposes to lease portions of water rights 61-12354 through 61-12359 totaling 37.3 acres into the Bank for the 2022 season. 29 acres of the same water rights were previously leased into the Bank for the years 2020 and 2021.

Authority to File

Paul and Sheila Hudson are the owners of record for all water rights involved in the lease. The applicants are listed as the same. Paul Hudson is listed as the designated lessor. No concerns

Water Right Validity

There were no concerns about validity for the previous lease contract. Since no time will elapse between the current contract and the new contract, there will be no concerns about validity at this time.

Injury to Other Water Rights

No injury is anticipated from the nonuse of these rights in accordance with the lease contract.

Enlargement of Use

No enlargement is evident through nonuse of the water rights. All rights appurtenant to the idled acreage have been included in this lease proposal. Proportional amounts of each water right is included to ensure that no individual right is enlarged.

Local Public Interest

None of the available information suggests a conflict with the local public interest.

Beneficial Use/Conservation of Water Resources

The lease proposal appears to be consistent with the conservation of water resources in Idaho.

Department/Watermaster Comments

Watermaster and IDWR Western Region comments were requested.

Jean,
Sorry, I was not clear, the number of acres for both J&M and Hudson is from the limited acres. --Hal

Yes, that is correct. Maybe I was a bit too specific on the application, but the rounded acreages are fine. Hal

Hal,

The Department needs some clarification on the Water Supply Bank applications you submitted for J&M Solid Rock and the Hudson's.

For J&M: the applications state that they would like to place 55.97 acres (we will round this up to 56 acres) in the Bank. Each water right has its own acres. Is the 56 acres the total from the acre limit of 62.3 acres (if this is the case, is J&M still going to irrigate 6.3 acres?) or the total number of acres the rights equal when the acre limits are added up (which is 68.6 acres)?

For the Hudson's: the applications state that they would like to place 37.26 acres (we will round this to 37 acres) in the Bank. Each water right has its own acres. Is the 37 acres the total from the acre limit of 39.0 acres (if this is the case, are the Hudson's still going to irrigate 2.0 acres?) or the total number of acres the rights equal when the acre limits are added up (which is 43.22 acres)?

I have attached a spreadsheet. Let me know if you have any questions. Thank you.
