3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

Minimum Payment Acceptable: Current Rental Rate

3. **TERM OF LEASE:** The term of this lease shall be January 1, 2022 to December 31, 2022. This Lease shall bind the parties and take effect when both parties have signed it.

WATER SUPPLY BANK LEASE CONTRACT No. 1501

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
13. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 143.
14. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
15. This right does not grant any right-of-way or easement across the land of another.
16. Rights 43-13466, 43-13468, 43-7015, 43-13384, 43-13386, 43-13388, 43-13390, 43-13392, 43-13394, 43-13396, 43-13398, 43-13400, 43-13402, 43-13404, 43-13406 and the unleased portion of 43-13797 are limited to the irrigation of a specific 682.9 acres within the 3469.7-acre place of use authorized by this right in a single irrigation season. Narrative: The Department received this application on December 13, 2021. The application was signed by Benjamin Giddy, manager. The applicant wishes to place 25.3 acres in the Bank. These 25.3 acres were enrolled in the CRP program under the parent right, 47-7042 and this right until 2015. These acres have been in the Bank since 2018. The right is limited to the irrigation of 226.6 acres in a 3469.7 PPU and is combined with 15 other rights. These rights combined are limited to the irrigation of 708.2 acres in a single irrigation season. Portions of the other rights have never been leased to the Bank. The unleased portion of this right combined with the other rights will be limited to the irrigation of 682.9 acres during the term of the lease. This right is currently within WD 143, ESPS GWMA and Raft River GWD.

WR 43-13797 was added into the PPU in 2018 by approval of transfer 82002. Conditions on the water rights at the place of use prior to that transfer limited to rights to 481.6 acres. Transfer 82002 added 43-13797 into the system increasing the authorized acres from 481.6 to 708.2. Therefore, the 226.6 acres under 43-13797 can be separated out and leased into the water supply bank without enlargement of the right or the other rights in the PPU
