DEPARTMENT OF
WATER RESOURCES

SUBMITTING PROOF OF BENEFICIAL USE

FOR OFFICE USE ONLY

Amt. of Fee \$ 50.00

Receipt No. N038772

Received By JA

Date Received 4-1-22

The Idaho Department of Water Resources (Department) considers this form a statement that the permit holder(s) applied water to beneficial use and completed development of a water right to the extent described below. **This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner (CWRE).** Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, complete an Assignment of Permit form. If you wish to relinquish your permit because you have not established the authorized water use and are not applying for an extension, please notify the Department in writing.

1. Permit No. 96-9739 Name of Permit Holder(s) ARROWHEAD Ranch Water Association Inc
 Telephone No. 206 427 1698 Email FredVincent4@gmail.com
 Mailing Address PO Box 1276 City SANDPOINT State ID Zip 83864
 2. Source of Water Groundwater If Ground Water (well), Date Drilled mo. ____ / yr. ____
 Drilling Permit/Tag No. ____ Drilling Company's Name ____

3. Extent of use(s) completed as authorized by the water right permit:

Domestic (No. households) 3 Irrigation (No. acres) ____ Stockwater (No. and stock type) ____
 Other ____

4. Total diversion rate or volume (storage only) for which proof is submitted .08 cfs OR ____ af
If the total developed water use is 5 acres of irrigation or less, is stockwater storage of 14.6 acre-feet or less, or has a diversion rate of less than 0.24 cfs, attach a map of the place of use and point of diversion and photographs showing beneficial use.

5. Describe the diversion and delivery system from the water source to the use (pump, lift, irrigation method, etc.)

well & pump to community system

6. Permit condition compliance. Refer to the permit approval conditions and check all the items required, then check "Yes" or "No" to indicate whether the required items were established, submitted, and/or installed:

Required? Yes No (If "Yes", attach required data, evidence of compliance, or evidence of installation)

- | | | |
|--------------------------|-------------------------------------|---|
| ☐ | ☒ | Ground water level data, pumping information, or other diversion data |
| ☐ | ☒ | Mitigation plan |
| ☐ | ☒ | Lockable controlling works |
| ☐ | ☒ | Measuring device |
| ☐ | ☒ | Fish screen |
| ☐ | ☒ | Other requirements of the water right permit |
| ☐ | ☒ | Reasonably Anticipated Future Needs ("RAFN") Municipal use |

If RAFN Municipal use, additional increment of beneficial use developed? ☐ Yes (attach CWRE report) ☐ No

7. Fee Enclosed \$ 50.00 or ☐ CWRE field report attached or ☐ No fee required

See fee schedule on page 3 of the instructions. Proof statements filed without an appropriate fee are incomplete.

8. Person to contact to accompany a Department representative during the field examination of the water system:

Name: Fred Vincent Telephone No. 206 427 1698 Email FredVincent4@gmail.com
 Mailing Address PO Box 184 City COCO/ALLA State ID Zip 83813

The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted and applied to beneficial use. I understand that any undeveloped portion of the permit is relinquished to the State of Idaho.

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 96-9739

Dear Permit Holder:

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Northern Region Office of the Department located in Coeur d'Alene at (208) 762-2800.

Sincerely,

Debbi Judd
Technical Records Specialist

MEMORANDUM

TO: Water Right File 96-9739

FROM: Daniel A. Nelson

DATE: April 6, 2022

SUBJECT: Inability to perform an In-house Field Examination

This permit does qualify for an in-house examination. However, there are a number of questions that I feel can only be answered by visiting the site and doing a full field examination. I will list them below:

- 1.) The permit shows a point of diversion that is in a different location than the well that is discussed in the application for permit.
- 2.) The well discussed in the application for permit appears to be the same point of diversion for 96-9566. Water right 96-9566 is for Michael D Bennett, which is also listed as one of the property owners (the middle property owner) included in the place of use. Therefore, we couldn't include this property in the proposed license if it is already covered by 96-9566.
- 3.) The application for permit states the water right 95-9579 shares the same point of diversion. This water right is in an entirely different basin. Therefore, this doesn't make any sense. This water right number was changed to 96-9579 in the permit, which does make more sense. There is a combined limitation that states 96-9579 and 96-9739 are diverted from the same point of diversion. The well drilled for Mr. Bennett is in a completely different 40-acre tract.
- 4.) The water right 96-9579 appears to be owned by Arrowhead Ranch Water Association. This water right is a domestic use for a 9-home subdivision. There are questions whether or not this use is part of a public drinking water supply or not. This will need to be investigated to determine if the conditions on the permit regarding whether the permit holder is complying with Department of Environmental Quality public drinking water requirements.
- 5.) Water right 96-8187 appears to be on or near the western most property. Therefore, that also needs to be further investigated.
- 6.) Water right permit 96-9848 for domestic use is another permit owned by the eastern most property, but proof of beneficial use hasn't been filed on that permit yet. Proof of beneficial use is due on April 1, 2026. It would be prudent to discuss with that property owner the nature of the domestic use for permit 96-9848, and if permit 96-9848 will interfere with the domestic use for this permit.

In conclusion, there are simply too many overlapping water rights and questions that need to be answered before we can license this permit. I strongly recommend that an agent go out and see what is exactly being done with this permit and the overlapping water rights.
