RE: Change in Ownership Water Right No. 29-14222, 29-13690, 29-13807

Dear Sir/Madam:

The Department of Water Resources acknowledges receipt of your Notice of Change in Water Right Ownership.

Our review of your notice indicates that additional information is required before we can process the change. The information required is indicated below:

**** **Additional filing fee/Application:** It appears we have sufficient evidence to update 29-13690 and 29-14222. The department has been working with you on some discrepancies between the property boundary and the water right place of use for 29-13807. Water right number 29-13807 will require a split therefore an additional filing fee of \$75.00 is required. Also, it appears the split will be disproportionate to the property sale; therefore, a transfer application is required to move some of the water right off the Kennymore property. A transfer application and request for additional fees was emailed on April 5, 2021, however the information and/or fees have not been received. Transfer application and a map are attached for your convenience.

Because the Department cannot process the ownership change without proper documentation/fees, we will hold any action on your notice pending receipt of the necessary information/fees. If we do not receive the necessary information/fees within 30 days we will return your notice and all attachments and your notice will not be processed.

Please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please feel free to contact the Department if you have any questions.

Sincerely,

Jonie Barg
Technical Records Specialist

Water Right
29-13807

IRRIGATION

The map depicts the place of use for the water use listed above and point(s) of diversion of this right as currently derived from interpretations of the paper records and is used solely for illustrative purposes. Discrepancies between the computer representation and the permanent document file will be resolved in favor of the actual water right documents in the water right file.
