STATEMENT OF COMPLETION

FOR SUBMITTING PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources (Department) considers this form a statement that the permit holder(s) applied water to beneficial use and completed development of a water right to the extent described below. **This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner (CWRE).** Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, complete an Assignment of Permit form. If you wish to relinquish your permit because you have not established the authorized water use and are not applying for an extension, please notify the Department in writing.

1. Permit No. 74-16060 Name of Permit Holder(s) Victoria Melton
 Telephone No. (208) 881-3247 Email heritagevicci@yahoo.com
 Mailing Address 10 BANTA Drive City Salmon State CA Zip 93467

2. Source of Water Unnamed Stream Ground Water (well), Date Drilled mo. ____ / yr. ____

Drilling Permit/Tag No. ____ Drilling Company's Name ____

3. Extent of use(s) completed as authorized by the water right permit:

Domestic (No. households) ____ Irrigation (No. acres) 2.06 Stockwater (No. and stock type) ____

Other Aesthetic storage 2.0 acres

4. Total diversion rate or volume (storage only) for which proof is submitted 0.06 cfs OR 2.0 af
If the total developed water use is 5 acres of irrigation or less, is stockwater storage of 14.6 acre-feet or less, or has a diversion rate of less than 0.24 cfs, attach a map of the place of use and point of diversion and photographs showing beneficial use.

5. Describe the diversion and delivery system from the water source to the use (pump, lift, irrigation method, etc.)

1 HP pumped to hoses for watering lawn & fruit trees

6. Permit condition compliance. Refer to the permit approval conditions and check all the items required, then check "Yes" or "No" to indicate whether the required items were established, submitted, and/or installed:

Required? Yes No (If "Yes", attach required data, evidence of compliance, or evidence of installation)

- | | | |

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 74-16060

Dear Permit Holder:

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Eastern Region Office of the Department located in Idaho Falls at (208) 525-7161.

Sincerely,

Debbi Judd

DEPARTMENT OF
WATER RESOURCES

To Whom It May Concern:

I am writing this letter in response to the points of concern as noted on the Statement of c
Completion:

1. Lockable controlling device includes use of one HP electric pump (initially used ½ HP but became inoperable) which is located on a temporary deck during the spring through fall seasons. The pump's energy source consists of an electrical outlet located next to the pump.

In discussing this situation, I spoke with a Mr. Fahlgren, of the Idaho Falls office and it was his opinion that this system would meet the requirements for the lockable controlling device.

2. Mr. Fahlgren's opinion is that the screen/filter connected to the plastic hose, which draws the water to the pump, was adequate. In this regard, as noted in previous documentation, my source of water comes from an un-named spring, and does not afford itself to fish. The spring does not come into contact with the Lemhi river until after it leaves my property.
3. Measuring device: In further discussion with Mr. MacKinzey, my pump is utilized for watering my lawn and approximately 10 fruit trees. It would appear that my water usage is minimal. I am not sure how or what I could do to measure the amount of water flow. The water is drawn through the pump using four hoses and four sprinklers.

With respect to the pond, it was built by the original owner, Larry Cragwick. It was well established when I purchased the property in July 2016. It is maintained for its aesthetic value. It has a gate that is utilized to maintain a flow of water, and in times of minimal flood there is a secondary ditch that allows for overflow from the culvert that goes to the pond.

I hope this provides the information needed in addressing the concerns listed in the Statement of Competition. For any questions please contact me at 208-881-3247 or by email at hertiagevicci@yahoo.com.

Sincerely,

Victoria Melton
