5. Water will be used for the following purposes:  
 Amount 0.150 for crop irrigation purposes from 3/15 to 10/31 (both dates inclusive)  
 (cfs or acre-feet per year)
- Amount \_\_\_\_\_ for \_\_\_\_\_ purposes from \_\_\_\_\_ to \_\_\_\_\_ (both dates inclusive)  
 (cfs or acre-feet per year)
- Amount \_\_\_\_\_ for \_\_\_\_\_ purposes from \_\_\_\_\_ to \_\_\_\_\_ (both dates inclusive)  
 (cfs or acre-feet per year)
- Amount \_\_\_\_\_ for \_\_\_\_\_ purposes from \_\_\_\_\_ to \_\_\_\_\_ (both dates inclusive)  
 (cfs or acre-feet per year)
6. Total quantity to be appropriated is (a) 0.150 cubic feet per second (cfs) and/or (b) \_\_\_\_\_ acre-feet per year (af).
7. Proposed diverting works:
- a. Describe type and size of devices used to divert water from the source. surface pump - 1 HP  
shallow well pump 120V, 3/4 to 1" PVC pipe irrigation
- b. Height of storage dam 0 feet; active reservoir capacity \_\_\_\_\_ acre-feet; total reservoir capacity \_\_\_\_\_ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No
- c. Proposed well diameter is \_\_\_\_\_ inches; proposed depth of well is \_\_\_\_\_ feet.
- d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No
- e. If well is already drilled, when? \_\_\_\_\_; drilling firm \_\_\_\_\_  
 well was drilled for (well owner) \_\_\_\_\_; Drilling Permit No. \_\_\_\_\_

## For Department Use

Total number of acres to be irrigated: 7.5

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? \_\_\_\_\_  
Garden, landscaping, lawn
11. a. Who owns the property at the point of diversion? Ann Huycke Trust  
b. Who owns the land to be irrigated or place of use? Ann Huycke Trust  
c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: \_\_\_\_\_
12. Describe your proposal in narrative form and provide additional explanation for any of the items above. Attach additional pages if necessary. Expansion of garden, lawn & landscaping from its current 1 acre to encompass the flat area along the river up to the mountains.
13. Time required for completion of works and application of water to proposed beneficial use is 1 (24) one year years (minimum 1 year).
14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

**Re: Water Right Application Incomplete - Returned**

Dear Applicant:

This office received your corrected application on January 24, 2022. In my email dated January 26, 2022, I requested information necessary to make your application complete. An email response was received but was unclear. A follow-up email on February 4, 2022, attempted to clarify the time to complete your project. The Department is not able to accept the application for processing until the past requested information is fully submitted. Please address the following item.

- **Item 13.** Period of Time to complete the project works and apply water to the proposed use was not provided correctly. The minimum term of a permit is 1 year, the maximum is 5 years. Please specify an **exact number** of years that you will need to complete the proposed diverting works and apply water to the proposed irrigation use. This number will determine the number of years IDWR allows you to complete your project under a permit before proof of beneficial use is due.

This letter is an attempt to ensure that your application is complete in order to establish a priority date. Changes to your application should be made by crossing out the old values and writing in the new values with the date and your initials next to the changes. You may receive future correspondence regarding more specific details of your application.

The original incomplete application for permit is enclosed. Please make the necessary changes to the original form and re-submit within the next **thirty (30) days**. If IDWR does not receive your written response within **thirty (30) days**, a refund will be issued for this filing. IDWR forms and other information are available on the Internet at [www.idwr.idaho.gov](http://www.idwr.idaho.gov). Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the necessary information or fee.

Sincerely,

*Allen Bradbury*

|     |     |     |     |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |        |
|     |     |     |     |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |        |

Total number of acres to be irrigated: 5

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? \_\_\_\_\_

I intend to use this water for garden, landscaping, & lawn.

- Who owns the property at the point of diversion? Ann Huycke Trust
- Who owns the land to be irrigated or place of use? Ann Huycke Trust
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: \_\_\_\_\_

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. \_\_\_\_\_

13. Time required for completion of works and application of water to proposed beneficial use is 1-5 years (minimum 1 year).

14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

RE: Application for Permit No. 65-24119

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the IDAHO WORLD on 4/7/2022 and 4/14/2022. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact the Western Region office at (208) 334-2190 if you have any questions regarding the application.

Sincerely,

Jean Hersley  
Technical Records Specialist

Watermaster:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right application. You can find a copy of the application at: <https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>. Please review the application, then complete the enclosed recommendation form and return it to the Western Region office by April 25, 2022.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation by April 25, 2022., IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Please contact the Western Region office if you have any questions regarding the application.

**Re: Water Right Application Incomplete - Returned**

Dear Applicant:

This office received your corrected application on January 24, 2022. In my email dated January 26, 2022, I requested information necessary to make your application complete. An email response was received but was unclear. A follow-up email on February 4, 2022, attempted to clarify the time to complete your project. The Department is not able to accept the application for processing until the past requested information is fully submitted. Please address the following item.

- **Item 13.** Period of Time to complete the project works and apply water to the proposed use was not provided correctly. The minimum term of a permit is 1 year, the maximum is 5 years. Please specify an **exact number** of years that you will need to complete the proposed diverting works and apply water to the proposed irrigation use. This number will determine the number of years IDWR allows you to complete your project under a permit before proof of beneficial use is due.

This letter is an attempt to ensure that your application is complete in order to establish a priority date. Changes to your application should be made by crossing out the old values and writing in the new values with the date and your initials next to the changes. You may receive future correspondence regarding more specific details of your application.

The original incomplete application for permit is enclosed. Please make the necessary changes to the original form and re-submit within the next **thirty (30) days**. If IDWR does not receive your written response within **thirty (30) days**, a refund will be issued for this filing. IDWR forms and other information are available on the Internet at [www.idwr.idaho.gov](http://www.idwr.idaho.gov). Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the necessary information or fee.

Sincerely,

Allen Bradbury  
Water Resource Agent, Sr.

Hi Ann,

I've attached a map that I made based on the area you highlighted in your application. The map shows your irrigation place of use would cover 2.5 acres on your parcel and 5 acres on the neighboring Craig B Meyers property. Is this correct?

Also, sorry for any miscommunication from our office concerning the project completion time. However, to accept a permit application we need you to pick an exact number of years. I usually recommend giving yourself the maximum number of years which is five.

Regards,

Allen

**Subject:** Re: Water Permit Application

Hello Allen,

Take the map to the southern border of the property as it stands now. I have not purchased any new property.

I would like the project to be completed this summer. Your office told me to put down 1-5 years.

Let me know if you have further questions.

Ann

**Subject:** Water Permit Application

Hi Ann,

This email is in regard to your water permit application. I just have a couple of questions.

1. According to tax parcel information, the south of half of the parcel you wish to irrigate is owned by someone else. Have you recently purchased this property or have some other arrangements?

2. Question 13 of the application asks for a specific number of years until completion. You answered 1-5 years, however the Department needs a definite number of years. I generally recommend people write in the maximum number of years.

If you have further questions about this email, please give me a call at 208-334-2190.

Regards,

Allen Bradbury

**Re: Water Right Application Incomplete - Returned**

Dear Applicant:

This office received your draft application on December 2, 2021. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- **Item 3.** Source of Water Supply – Based on the legal description and the map you provided; it appears that you intend to divert water from the Middle Fork Payette River tributary to Payette River. Please correct the source name.
- **Item 4.** Location of Point of Diversion – Source should be Middle Fork Payette River. Additionally, it appears that you intend to divert water within the NE  $\frac{1}{4}$  NE  $\frac{1}{4}$  Government Lot 1. Please add L1 in the Govt Lot column and correct the source name to Middle Fork Payette River.
- **Item 7.** Proposed Diverting Works – Please describe further the type of irrigation system and size of devices you will use to divert water.
- **Item 8d.** Description of Proposed Uses – You do not need to fill in the number of households, if you are not applying for a domestic water use from the river. It appears you already have a domestic right from groundwater, water right no. 65-10676.
- **Item 9.** Description of Place of Use – The number of acres in the table does not match the total number of acres to be irrigated. These two numbers should match. Please correct adjust the number of acres to match. Additionally, it appears that you intend to irrigate within the NE  $\frac{1}{4}$  NE  $\frac{1}{4}$  Govt Lot 1 rather than Govt Lot 7, please correct the Govt Lot number.
- **Item 12.** Describe your proposal in narrative form – This description should be a general statement describing your proposed project. (The description provided in item 10 should ideally go here).
- **Item 13.** Time required for completion of works – please specify an exact number of years you will need to complete the development of your irrigation project. This number determines the number of years before proof of completion is due.
- **Item 14.** Map of Proposed Project – Please mark an outline on the map clearly showing the 7.5-acre place of use that you intend to irrigate.

This letter is an attempt to ensure that your application is complete in order to establish a priority date. Changes to your application should be made by crossing out the old values and writing in the new values with the date and your initials next to the changes. You may receive future correspondence regarding more specific details of your application.

The original incomplete application for permit is enclosed. Please make the necessary changes to the original form and re-submit within the next **thirty (30) days**. If IDWR does not receive your written response within **thirty (30) days**, a refund will be issued for this filing. IDWR forms and other information are available on the Internet at [www.idwr.idaho.gov](http://www.idwr.idaho.gov). Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the necessary information or fee.

Sincerely,

Western Region Water Rights Staff
