

Date: January 14, 2022
To: 96-9812 and 96-8983
From: Michele Edl
Re: planning-inspection documents

The following information was unsolicited. It appears to have been provided by Joseph Swan, the right holder of record for 96-9812.

I called the Northern Region office and spoke to the water rights supervisor. I learned that there has not been any change in the status of either of the rights listed on the FAX cover sheet.

I expect that the issue will be resolved through the ongoing Northern Idaho adjudication process but as of this date, the adjudication has not yet commenced in this basin.

Edl, Michele

Good Morning Michele,

This fax came in for you last night.

-Megan
