Re: Change in Ownership for Water Right No(s): 47-10383 & 47-10384

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership (Notice), the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

In processing the change of ownership, it was noted that the place of use (POU) of right 47-10384 is listed as the NESW of Section 27, T10S, R16E. In examining aerial imagery dating back to 1987, it appears that no home has existed in that QQ, while a home does exist in the SESW, where the point of diversion (well) is shown to be located. It is possible that an error in the adjudication claim or in the adjudication may have occurred, and that the actual POU may be the house located in the SWSESW of Section 27, which was not conveyed in the documentation submitted with the Notice. If an error did occur, it is possible to correct the issue with a water right place of use transfer.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 293-9909.

Sincerely,

Jim Bitzenburg
Senior Water Resource Agent
