Subject: RE: Eaglecreek HOA Permit Approval

Hi Nick,
The client is fine with adding a comment to the database and noting the file regarding the parcel numbers. Thanks.

Lori,

See the email string below. We'll just put a comment in the database and place this email string in the file so the parcel numbers can be updated at the time of licensing. No need for us to issue an amended approval.

Let me know if you would prefer an amended approval.

Nick.

It seems to me a memo to the file and an AdHoc comment would do. It's really just an explanatory condition, and the whole thing could be changed/updated without an amendment at licensing, so long as the QQs don't change.

Subject: FW: Eaglecreek HOA Permit Approval

Scott,

It looks like the application was filed based on a preliminary plat, but the final plat was numbered differently. Do you think we need to issue an amended approval, or should we just put this email and a short memo in the file, and maybe add a database comment so the parcel numbers can be updated at the time of licensing?

Subject: Eaglecreek HOA Permit Approval

Hi Nick,

Thank you for approving permit 63-35073 for Eaglecreek HOA. Condition 9 describes the POU as Lots 8-16, Blk 10, Senora Creek Subdivision No. 4. Checking the assessor's online data site, the POU is actually described as Lots 1-9, Blk 14, Senora Creek Subdivision No. 4. Below is a clip of the platted lots from the assessor's web site. Can this be fixed in the Department's database without a petition or amendment?
