

MEMORANDUM

Date: February 7, 2022
To: Transfer 85589
From: Jake Nebeker
Re: Review & Evaluation of Sufficiency of Information

The purpose of this transfer is to change a point of diversion for five rights on Garden Creek to a location on the water right owner's land. The application, as filed, proposed to describe three points of diversion, with two points of diversion in the NENW Sec 7, T10S, R36E. There is only one point of diversion at this location, the head of the canal from Garden Creek. I contacted the applicant about the discrepancy. He agreed that there should only be one point of diversion in the NENW Sec 7 T10S R36E. The point of diversion to be changed is a pump station on Garden Creek close to the authorized place of use for the rights. Transfer approval will only describe two points of diversion, the head of the canal and the proposed pump station.

Authority to File:

Jared and Amy Parker are the current water right owners of record. Bannock County tax lot data shows the Slash JP Livestock as the owner of the place of use and proposed point of diversion. Slash JP Livestock is owned by Jared and Amy Parker. The Utah Secretary of State website shows Amy Parker as a registered agent for the company. They have authority to make the change.

Water Right Validity:

The rights included in this transfer were decreed in the SRBA in 2004. Water rights 29-14191, and 29-14192 were part of approved transfer no. 81090 in 2016. Review of 2017, 2019, and 2021 aerial photography shows growing vegetation on the current place of use. Forfeiture does not appear to be an issue.

Injury to Other Water Rights:

Other rights do not appear to be injured by the proposed change. The quantity authorized to be diverted will not change as a result of the transfer. The water master was notified about the change and did not provide a comment. The transfer was advertised without protest.

Enlargement of Use:

The proposed change will not result in enlargement because neither rate nor irrigated acreage will increase as a result of the transfer.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
