WATER SUPPLY BANK LEASE CONTRACT No. 1448

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.

MEMORANDUM FOR APPLICATION # 2163

To: Water Right(s) 37-23144
From: Cody Parker
Date: October 25, 2021
Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

The purpose of application 37-23144 is to lease the full extent of water right 37-23144 into the Water Supply Bank for a period of 2 years (2022 – 2023). The same right has been leased to the Bank in full since 2019. The parent right was leased to the Bank since 2014.

AUTHORITY TO FILE:

The owner of record for this water right is Henry Vigil. Mr. Vigil is the lease applicant and provided the signature on the application. He also owns the land to which water right 37-23144 is appurtenant. No concerns

WATER RIGHT VALIDITY:

Water right 37-2055 was decreed in 2011 for 80 acres of irrigation within an 82.2 acre area. 37-2055 was leased in full to the Bank from 2014 to 2018. In December of 2018 a 3-acre portion of the water right was split and was given the number 37-23144. Right 37-23144 has been leased to the Bank since 2019 through lease contracts 892 and 1115.

No concerns with validity of the water right and portion offered to the bank.

INJURY TO OTHER WATER RIGHTS:

Lease of this water right would not cause injury to other water rights. Proper review to prevent injury if rented.

ENLARGEMENT OF USE:

According to the shapefiles, 37-11445 appears to overlap 37-23144. However, 37-11445 authorizes 1.5 acres of irrigation within a 55.6 acre place of use. It is likely not used on the same 3 acres authorized by 37-23144.

37-892 and 37-891A also authorize irrigation at the same location as 37-11445. These two rights are owned by the Upper Wood River Water Users Association Inc. The application says that no other water rights are used to irrigate the land to be idled under this lease. Since the area appurtenant to 37-11445 does not appear to have been irrigated since the parent right (37-2055) was decreed, and the decree makes no mention of water from rights 37-892 and 37-891A there does not appear to be any enlargement concerns.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The points of diversion for the lease are located within WD 37. Comments were requested from IDWR southern region and the WD 37 watermaster on October 26, 2021.
