IRONWOOD LAND LLC
1245 E BRICKYARD RD STE 70
SALT LAKE CITY UT 84106-2599

Dear Applicant,

On November 29, 2021, we received your application to change the place of use of water right no. 22-13808. On December 10, 2021 we requested additional information needed to continue processing the transfer. On January 26, 2022 we returned your application and filing fees because the requested information was not received.

On February 1, 2022 you resubmitted the application and provided information in defense of water right forfeiture. However, the amended application is still incomplete because it does not include the other information requested in the letter dated December 10, 2021. As mentioned in that letter, "The current ownership of the water right is based on a deed recorded in Teton County on August 15, 2006. Teton County parcel data indicate that some parcels within the current water right place of use no longer belong to Ironwood Land LLC. Please provide evidence that water right 22-13808 was not included in the sale of those parcels. For those parcels within the proposed place of use but outside the current place of use, please provide evidence authorizing the proposed change on behalf of those parcel owners."

We understand that you may need more time to gather the requested information. Therefore, we are returning your application and filing fees. Once you have the necessary documentation and your application is complete, you may resubmit it at that time.

Your refund will be sent separately from our Boise office. Please feel free to call if you have questions.

Respectfully,

Michael Holliday
Water Rights Supervisor
(208)525-7161
