DEPT OF WATER RESOURCES
SOUTHERN REGION

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

Ident. No. 37-23359

1. Name of applicant(s) JK Potatoes, LLC per 11-24-21 David Jentzsch email Phone 208-532-4119
 Name connector (check one): ☐ and ☐ or ☐ and/or
 Mailing address 20511 F Street City Rupert
 State Idaho ZIP 83350 Email info@jkfarms.com
2. Name of representative, if any David Jentzsch Phone 208-431-1227
 Mailing address 319 River Road City Bliss
 State Idaho ZIP 83314 Email david@hcanyonfarms.com
- a. ☐ Send all correspondence for this application to the representative and not to the applicant OR
☒ Send original correspondence to the applicant and copies to the representative.
- b. ☐ The representative may submit information for the applicant but is not authorized to sign for the applicant OR
☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation.
3. Source of water supply unnamed stream which is a tributary of Snake River
4. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
06S	13E	17			NW	NW	Gooding	unnamed stream	

5. Water will be used for the following purposes:
- Amount 4 cfs for Cooling purposes from July 5th to Oct 30 (both dates inclusive)
 (cfs or acre-feet per year)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
6. Total quantity to be appropriated is (a) 4 cfs cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).
7. Proposed diverting works:
- a. Describe type and size of devices used to divert water from the source. _____
- b. Height of storage dam n/a feet; active reservoir capacity n/a acre-feet; total reservoir capacity n/a acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate [Application for Construction or Enlargement of a New or Existing Dam](#). Application required? ☐ Yes ☒ No
- c. Proposed well diameter is n/a inches; proposed depth of well is _____ feet.
- d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No
- e. If well is already drilled, when? n/a; drilling firm _____; well was drilled for (well owner) _____; Drilling Permit No. _____

For Department Use

Received by SG Date 11/17/21 Time _____ Preliminary check by _____
 Fee \$ 370.00 Receipted by SG Receipt No. 5038944 Date 11/17/21

8. Description of proposed uses (if irrigation only, go to item 9):

- Hydropower; show total feet of head and proposed capacity in kW. _____
- Stockwatering; list number and kind of livestock. _____
- Municipal; must complete and attach the [Municipal Water Right Application Checklist](#).
- Domestic; show number of households _____
- Other; describe fully. _____

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
06S	13E	17						X											

Total number of acres to be irrigated: _____

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? _____

11. a. Who owns the property at the point of diversion? JK Potatoes

b. Who owns the land to be irrigated or place of use? JK Potatoes

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. _____

13. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).

14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

7a.

A 12 inch pvc mainline will be used to bring the water to the concrete pond. The water will then flow through the concrete pond which is 5,900 square feet in size (see attached dimensions for flume sketch). The flume is 4 feet deep. Then the water will be put into a 15 inch mainline at the end of the concrete flume and returned to the original natural drainage (point C).

8e. (use included map for reference)

currently water is being piped from springs to an unnamed stream. (point A through line 1 to point B on the map) We want to add a main line (line 2) that diverts water into a concrete flume described in 7a. water will flow into the flume at the water inlet, flow through the flume and exit at the water outlet. At that point it will flow into a pvc pipe (line 3) and flow to the original natural drainage at point B.

12.

We want to run water through a concrete flume to transport and cool fresh produce such as watermelon, cantaloupe, pumpkins. Produce will be unloaded at the inlet side of the flume and cooled while being transported to the outlet side of the flume, where the produce is lifted out of the water and into the packing shed. The water is then returned back to its natural point of diversion.

A mitigation Plan is included.
DS
1-21-22

Dimensions for flume

To whom it may concern,

12/6/2021

JK Potatoes LLC agrees to mitigate its irrigation water rights (37-21721, 37-793, and 37-7216) by ~~136~~ 0.1 DS
acres to account for the 5,900 sq ft flume used for cooling. This is in conjunction with water right

RE: Application for Permit No(s): 37-23359 & 37-23370 (JK Potatoes LLC)
Application for Permit No(s): 37-23360 (David & Laci Jentzsch)

Dear Nathan:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right application. You can find a copy of the application at:

<https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR can finish reviewing an unopposed application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Denise Maline

RE: Application for Permit No(s): 37-23359 & 37-23370 (JK Potatoes LLC)
Application for Permit No(s): 37-23360 (David & Laci Jentzsch)

Dear Mr. Dawson:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from your organization regarding the above referenced water right application. *You can find a complete copy of the application(s) at:* <https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>. Please review the application, complete the enclosed recommendation form, and submit it to this office within 21 days of the date of this letter.

IDWR can finish reviewing an unprotested application as soon as the protest period has past. Therefore, your prompt response to this request is appreciated. If your organization desires to formally protest the approval of this application, you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication (**on or before February 22, 2022**).

Please contact this office if you have any questions regarding the application.

Sincerely,

Denise Maline

Date Filed: 11-17-2021
Place Of Use: COOLING
T06S R13E S17 NWNW

Application for permit proposes diversion of up to 4.0 cfs for cooling use from an unnamed stream at a point located approximately 1.1 mile south and 0.3 mile east of the intersection of U. S. Highway 30 and River Road in Bliss. The water will be piped from the stream to an adjacent concrete flume where it will be used to cool produce from July 5 through October 30. The water will be piped back to the unnamed stream after leaving the flume. A mitigation plan is included in the application to address evaporation from the flume. This application proposes to appropriate trust water and will be evaluated in compliance with Section 42-203C, Idaho Code, and IDWR's Water Appropriation Rules, IDAPA 37.03.08.

NOTICE OF PROPOSED CHANGE OF WATER RIGHT TRANSFER NO. 85679

DOUGLAS E WICKHAM and TERRI WICKHAM, 18047 HIGHWAY 30, HAGERMAN ID 83332-5625 has filed Application No. 85679 for changes to the following water rights within TWIN FALLS County(s): Right No(s). 47-17555, 47-17560, 47-17565. The purpose of the transfer is to change a portion of the above rights as follows: Application proposes transferring a 2.6 acre portion (0.05 cfs) of three ground water rights from a farm located approximately 7.3 to 8.0 miles south and 0.8 to 1.5 miles west of the City of Kimberly for irrigation use to a parcel located approximately 6.8 to 7.0 miles north and 4.6 to 4.7 miles west of the city of Buhl. The transferred portion of the rights (0.05 cfs) will be diverted from an existing well and a new well to be drilled located on the proposed place of use.

Permits will be subject to all prior water rights. For additional information concerning the property locations, contact Southern Region office at (208) 736-3033; or for a full description of the rights &/or proposed transfer, please see <https://research.idwr.idaho.gov>. Protests may be submitted based on the criteria of Sec 42-222 and 42-203A, Idaho Code. Any protest against the approval of this application(s) must be filed with the Director, Dept. of Water Resources, Southern Region, 650 ADDISON AVE W, STE 500, TWIN FALLS, ID 83301-5858 together with a protest fee of \$25.00 for each application on or before February 22, 2022. The protestant must also send a copy of the protest to the applicant.

RE: Application for Permit No. 37-23359 and 37-23370

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the **TIMES NEWS on 2/3/2022 and 2/10/2022**. Protests to this application may be submitted for a period ending ten (10) days after the second publication. Any protest against this application must be filed with the Department of Water Resources, together with a protest fee of \$25.00 for each application, on or before **February 22, 2022**.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Denise Maline
Administrative Assistant

David-

Attached is a standard letter we send out to applicants whose applications for permit are within the trust water area. I have sent a paper copy to you and to JK Potatoes, LLC. Let me know if you want me to wait the 14 days before I continue processing, or if you want to withdraw the application; or, if you want me to continue with processing immediately you can let me know by email. I will be sending out the same letter for your domestic application and for the additional domestic application when it comes in. Let me know if you have any questions.

RE: Application for Permit to Appropriate Trust Water – No. 37-23359

Dear Applicant:

The Department of Water Resources ("Department") has received your application for permit to appropriate water and has accepted it for filing. Your application has been assigned the identification number referenced in the subject line of this letter. Please refer to that number in all future correspondence regarding this application.

Your application proposes to appropriate Trust Water as described in this letter. The special nature of the trust affects how the Department will process your application as well as some aspects of the water right that may result. The purpose of this letter is to inform you of three items specific to applications proposing to appropriate Trust Water:

1. Your application will be subject to additional evaluation compared to applications that do not propose the use of Trust Water. This may require you to submit additional information and to demonstrate that your application meets the statutory evaluation criteria for appropriating Trust Water.
2. If a water right is issued to you, it could be subject to curtailment to satisfy senior minimum stream flow water rights on the Snake River at the Murphy Gage.
3. If a water right is issued to you, it will be subject to a periodic term review that may impact the future use of the right.

To understand better these three items and why they apply to your application, it helps to understand what Trust Water is and how it came about.

Trust Water arose from the 1984 Swan Falls Settlement between Idaho Power Company ("IPC") and the State of Idaho ("State").¹ Prior to the Swan Falls Settlement, the Idaho Supreme Court determined IPC held water rights for use at Swan Falls Dam that exceeded the entire flow of the Snake River at times. This limited future upstream development of water resources in the Snake River Basin. The Swan Falls Settlement resulted in changes to Idaho Law² and to IPC's water rights. As a result of the Swan Falls Settlement and subsequent legislation and court decrees, IPC's hydropower water rights in excess of the minimum flows at Murphy Gage are held in trust by the State. This change allows future development using water that would have previously

¹ For more information, including a more complete description of the Swan Falls Settlement and resulting legislation, please see the Department's web page: <https://idwr.idaho.gov/legal-actions/settlements/swan-falls/>.

² Although several sections of the Idaho Code were affected, the addition of Sections 42-203B and 42-203C, Idaho Code are the changes most relevant to this discussion.

been delivered to satisfy IPC water rights at Swan Falls Dam and, therefore, would have been unavailable for upstream appropriation. The purpose of this trust is defined in Idaho Code § 42-203B as follows:

The purposes of the trust established by ... this section are to assure an adequate supply of water for all future beneficial uses and to clarify and protect the right of a user of water for power purposes ... to continue using the water pending approval of depletionary future beneficial uses.

Your application proposes a use of water that could deplete the rights placed in trust, so the State, through the Department must evaluate your proposal under the laws and rules that came after the Swan Falls Settlement.³ In addition to the usual statutory process and evaluation criteria, the Department must also evaluate whether your application will deplete Trust Water and, if so, whether your depletion of Trust Water is in the public interest.

In addition, the availability of Trust Water and the public's interest in the use of Trust Water could change over time. The Department will periodically review rights to use Trust Water to determine if Trust Water remains available for use and if the continued use of Trust Water is in the public interest. The periodic review will occur for any right that issues from your application. A future review by the Department could terminate or limit your ability to use the right in the future.

An important aspect of the Swan Falls Settlement is that the State agreed to protect the minimum stream flows in the Snake River at the Murphy Gage. Should the flows at the Murphy Gage fall below these minimums, the water rights that use Trust Water could be curtailed to restore flow to meet those minimums.

The Department will hold your application for 14 days to allow you time to contact us if you have further questions on this topic or if you choose to withdraw your application. If the Department does not hear from you within 14 days, the Department will process your application and prepare it for publication. If you choose to withdraw your application before it is submitted for publication, you will receive a full refund of your filing fee. Refunds are not available if an application is withdrawn after advertising.

Please contact this office if you have questions regarding this matter.

Sincerely,

Jim Bitzenburg
Senior Water Resource Agent

DEPT. OF WATER RESOURCES
SOUTHERN REGION

Resolution of Signing Authority

Date: March 30, 2021

WHEREAS, the management of JK Potatoes, LLC, Jentzsch Kearn Farms, LLC, and Teton Trees, LLC, (the "Companies"), is vested in Jentzsch-Kearn Farms, General Partnership (GP) via a certain Management Services Agreement dated July 31st, 2019,

And whereas the Second Amended and Restated Partnership Agreement of Jentzsch-Kearn Farms, GP vests management of Jentzsch-Kearn Farms, GP in a Management Committee, ,

And whereas there exists an Operating Agreement for the Companies and that said Operating Agreement remains in full force and effect as of this date,

And whereas the term of the Company shall continue perpetually unless sooner terminated,

And whereas all said requirements contained in the Operating Agreement to be met by its Members as to this Certificate of Authority have been completed,

NOW, THEREFORE, the Management Committee of Jentzsch-Kearn Farms, GP hereby resolve that the following Officers listed below are individually authorized and empowered to negotiate, enter into and execute, in the name and on behalf of the Companies, any agreements, documents, instruments, certificates, and other commitments or obligations that they deem or believe to be advisable and in the best interest of the Company.

Darek Jentzsch, President and CEO

Eric Mitton, Vice-President

Damon Jentzsch, Vice-President

Joe Kearn, Vice-President

Each of the undersigned, acting in the capacity and authority of the office ascribed to their name, hereby certify that the foregoing resolution was adopted at a meeting of the Management Committee of Jentzsch-Kearn Farms, GP held on the date first written above.

Attachments: Notarized Signatory Authority Resolution.pdf

314 is my personal address. 319 River road is my business address, so please use that one.

I have attached signing authority document.

Yes it is JK potatoes LLC

thanks

David-

I've been doing the data entry on the JK Potatoes, LLC Application for Permit for cooling, and I've got a couple of items to clear up. The first question is your address as representative on the application. We have your address in our database as 314 River Road, and it is listed as 319 River Road on the application. Which should we go with?

Also, the application appears to be signed by Darek Jentzsch, and his name does not show up on the Annual Report form (attached) for JK Potatoes, LLC filed with the Idaho Secretary of State's office. Do you have some documentation showing that he has authority to sign for JK Potatoes, LLC? If not, could you submit a new signature page signed by one of the members of the LLC?

That brings up a small item of clarification- the name of the applicant on the form is JK Potatoes, and would it be correct to make that JK Potatoes, LLC on the form?

Thanks for your assistance, and FYI, the number of the application is 37-23359.

Jim

Evaporation Loss Analysis of Application for Permit 37-23359 (cooling) - JK Potatoes, LLC

Jim Bitzenburg - December 3, 2021

Based on the University of Idaho *Evapotranspiration and Consumptive Irrigation Water Requirements for Idaho* Website; data for Hagerman, Idaho

Square footage of flume: 5900 square feet

Proposed season of use: July 5 through October 30 (118 days)

PRECIPITATION DEFICIT CALCULATION, based on Open Water, Shallow Systems

July	5.33 mm/day x 27 days = 143.91 mm
August	4.66 mm/day x 31 days = 144.46 mm
September	3.60 mm/day x 30 days = 108.00 mm
October	2.17 mm/day x 30 days = 65.1 mm
Total	461.47 mm or 1.514 feet

$$5900 \text{ ft}^2 = 0.135445363 \text{ acre} \times 1.514 \text{ feet} = \mathbf{0.2050 \text{ AF}}$$

Acres needed for mitigation

$$0.2050 \text{ AF} / 2.43 \text{ AF/acre (precipitation deficit requirement for melons)} = 0.08 \text{ acres, round to 0.1 acre}$$
