RECITALS

1. The Board is authorized under chapter 17, title 42, Idaho Code to operate a water supply bank and to contract with lessors to act as an intermediary in facilitating the rental of water.
2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on November 12, 2021.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.
13. Place of use is within lot 6, Greenhorn Bench Subdivision.
14. Use of water under this water right may be regulated by the watermaster of State Water District No. 37.
15. Water Right 37-153C when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre for irrigation of the lands above.

MEMORANDUM FOR APPLICATION #2198

To: Water Rights 37-153C & 37-2644D
From: Tyler Smith **DRAFT**
Date: 12/21/21
Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

Purpose/Narrative: Two applications was received by the Department on November 12, 2021 from James P. Speck of Speck & Aanestad, A Professional Corp. (Representative) on behalf of The Jones Trust requesting to lease the entirety of water rights 37-153C and 37-2644D to the Water Supply Bank (Bank) for the 2022 year. The rights have been leased in previous years, from 2014 through 2021.

Rights 37-153C and 37-2644D when combined with 5 other rights are limited to 13.5 acres of irrigation. According to Department records, 2.2 acres are not leased to the Bank and are assumed to be fully used, and 8.6 acres are rentable from the Bank for 2022. Therefore, only 2.7 acres from 37-153C and 37-2644D will be rentable as a result of this lease to prevent enlargement of the rights.

Authority to File: The applications were filed in the name of The Jones Trust, and were signed by Dale H. Jones, a Trustee. Department records indicate that The Jones Trust is the current owner of both rights proposed for lease, and James P. Speck is listed as the representative for The Jones Trust.

Dale H. Jones is the property owner at the POU for both rights, and the POD for 37-2644D. However, the POD for 37-153C is located on the property of Harry R Drackett III. According to previous lease memos for these rights, the POD for 37-153C is inactive, partially from the multiple ownership changes and splits that 37-153C has undergone. There are no known issues from the previous leases, so no issues with authority to file are known at this time.

Water Right Validity: Rights 37-153C and 37-2644D have been accepted into the Bank as valid rights since 2014. Satellite imagery indicates that the lessor has been complying with the conditions of prior lease agreements, and that continued for the previous year, 2021. No concerns with validity of the water rights being offered to the bank.

Injury to Other Water Rights: Lease of this water right would not cause injury to other water rights. Proper review to prevent injury if rented, with special attention paid to the combined limit of 13.5 acres of irrigation.

Enlargement of Use: Rights 37-153C and 37-2644D have a combined acre limit of 13.5 with rights 37-2644C, 37-2644E, 37-22822, 37-22826 and 37-22827. For the 2022 year, 37-2644E and 37-22822 are leased to the Bank under contract #1138 and have 5.6 acres rentable. 37-2644C and 37-22826 are also currently lease to the Bank for 2022 under contract #1004 and have 3 acres rentable. 37-22827 is not leased to the Bank and therefore it is assumed all 2.2 acres authorized under the right are being used. Since all of these rights are limited to 13.5 acres, this lease must not allow for a rentable amount of acres that would enlarge the combined limit to more than 13.5 acres. Therefore, all of the rights when combined currently allow for 10.8 acres ($5.6 + 3 + 2.2$), leaving 2.7 acres rentable from this lease and rights 37-153C and 37-2644D ($13.5 - 10.8 = 2.7$).

Additionally, 37-153C authorizes 2.7 acres of irrigation from Greenhorn Creek and 37-2644D authorizes 1 acre of irrigation from groundwater. The place of use (POU) for 37-2644D is completely within the POU for 37-153C, so the lease will be limited to 2.7 acres of rentable irrigation to prevent enlargement of these rights. There is irrigation of landscaping occurring around the house, however there is still 2.7

acres within the POU boundary that has been idled, and when accounting for the house and driveway the irrigation that is occurring is within the 0.5 acres of irrigation allowed under §42-111 Idaho Code.

Local Public Interest: Review staff has no information to suggest this application is inconsistent with the local public interest.

Beneficial Use/Conservation of Water Resources: The lease appears consistent with the conservation of water resources in Idaho.

Department Staff or Watermaster Comments: The location for the lease POD is subject to Water District #37. Comments from Southern Region and District 37 Watermaster Kevin Lakey were requested on 12/22/21. If no response is received, it is assumed that there were no concerns with the lease as proposed.
