Department of Water Resources
Eastern Region

James Gneiting
Lewisville, Idaho
January 6, 2022

To Whom It May Concern:

In changing the point of diversion for my water right on the Parks and Lewisville Canal I was asked to write a letter giving my permission for them to have access to the pump at the new point of diversion. This is for that purpose.

I James Gneiting give the watermaster and other elected officials of the Parks and Lewisville Canal my permission to access the point of diversion and area surrounding it for purposes associated with the needs of the canal.

Thank you,

James Gneiting
