Proof Report

No licensed annual diversion. Could not determine recommended annual diversion.

4. jdean 11/7/2006 Licensing Exam

The licensing exam for this claim indicates an additional well that was not licensed as part of this water right. The unlicensed well was filed on for 2 acres which were originally part of this POU (claim 67-12328).

5. jdean 11/7/2006 Reduction in acres

This claim was recommended with 2 acres less than what was originally licensed. The diversion rate remained unchanged. This will give a higher diversion rate per acre than what was licensed. The other 2 acres are recommended as 67-12328 according to a new claim and claimant. Claim 67-12328 is for a well that was recorded, but not licensed at the time of the exam for this license.

6. jdean 11/7/2006 Quantity

The diversion rate for this claim is recommended as licensed. The diversion volume is recommended according to the standard ($4.5 \text{ afy/acre} * 78 \text{ acres} = 351 \text{ afy}$).
