SURVEY NARRATIVE & NOTES

1. The purpose of this map is to show the monuments found and set during the boundary retracement of Tax Lot 184, Tax Lot 190, and the Southwest Quarter of Section 32, described in Warranty Deed, Instrument Number 2011-08777, record of Camas County, Idaho, and in the Commission for Title Insurance, File No. 6276556, issued by First American Title Insurance Company, with Commission date of February 28, 2017, as Parcel Nos. 1 and Parcel No. 2, and reconfigures into three (3) parcels as shown hereon. All found monuments have been accepted. No monument was found at the Northwest corner of Section 32, however, the Southwest Fence corner of the existing Corral Creek Cemetery was accepted as the best evidence, setting a 5/8" rebar with Aluminum Cap at the Southwest corner of the existing fence post. The North Quarter corner of Section 32 was set by single proportion between the established Northwest Section corner and the South 5/8" rebar with Aluminum Cap at the Northwest corner of Section 32. The Fence corner at the West Quarter of Section 32 falls close, within 9 feet, to where the single proportion location would be, so the fence post has been accepted as the best available evidence for the West Quarter corner. The Center Field 1/4 corner, point (C), was center of the existing gravel road, splitting the existing fence dimensions. The Center Quarter corner was then set at the intersection between the North & South Quarter corners and the West Quarter corner and the Center East 1/4 corner. Although not the described method in the BLM manual, however, this method used matches existing fences and long established lines of occupation. Additionally, the East 1/4 corner was set at the center of the existing gravel road, being Corral Creek Rd., along the southerly boundary of Section 32. Again, not the described method in the BLM manual, however, this matches the centerline of the road, and the fences on either side of the long established gravel road, Corral Creek Road, being accepted as the corner boundary between the East and West halves of the Southwest Quarter of Section 32. Fence corners and interpretations have been accepted as the best available evidence of the original corner locations, as being within about 10 feet of where the described position would be if using the BLM manual. Long established fence lines and centerline of Corral Creek Rd. are controlling elements in this survey along with the found survey monuments. Additional documents used in the course of this survey include Warranty Deeds, Instrument Numbers 2010-08054, 2011-08077, 2011-08774, and the GLO Plat and Notes of Township 1 North, Range 13 East, BLM Meridian, approved 1/12/1871.
2. The bearings and distances shown are measured. Refer to the above referenced warranty deed for previous record data.
3. This survey does not purport to reflect any of the following which may be applicable to subject real property: natural hazards, encroachments, encroachments, wellheads, easements, building setbacks, restrictive covenants, subdivision restrictions, zoning or any other land-use regulations.
4. A Commitment for Title Insurance for Tax Lot 184, Tax Lot 190, and the Southwest Quarter of Section 32 has been issued by First American Title Insurance Company, File Number 6276556, with a Commission date of February 28, 2017. Certain information contained in said policy may not appear on this map or may affect data shown hereon. It is the responsibility of the owner or agent to review said policy. Some of the encroachments and easements listed in the title report are NOT public notice. Review of specific documents is required, if further information is desired. A Mineral Power Easement exists over the subject property.

CERTIFICATE OF SURVEYOR

I hereby certify that I am a Registered Land Surveyor in the State of Idaho and that this map is a true and accurate representation of a survey done under my direct supervision.

Re: Change in Ownership for Water Right No(s): 37-23081 and 37-23082

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you. **The Department also acknowledges receipt of correspondence adding security interest of the above referenced water right(s) to D. L. Evans Bank, Jerome. We have modified our records and have enclosed computer-generated reports for you.**

Additionally, D. L. Evans Bank, Twin Falls, is still identified as a security interest holder on these water rights. If this is no longer correct, it can be removed from the rights upon written notice from the security interest holder that the interest has terminated.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership (Notice), the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

While processing the ownership change, it was noted that a domestic/stockwater right, 37-13319, is appurtenant to a portion of the conveyed property (NWSE). In addition, a portion of irrigation rights 37-720, 37-1176, 37-23079, 37-23080, 37-23361, 37-23362 is appurtenant to the conveyed property. You may wish to submit another Notice of Change in Water Right Ownership if you intend to take ownership of the domestic/stockwater right, or a portion of the irrigation rights.

The \$150.00 fee remitted with the Notice was intended to pay for one ownership change split and two changes of ownership. Right 37-23082 was split in a previous ownership change, so no split fee was necessary on that right, just the change in ownership, plus the change for right 37-23081, totaling \$50.00. I will initiate a refund of the extra \$100.00 in fees from our State office, back to you.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.
