

Permit No. 74-16057

RECEIVED

JUN 07 2022

via email

DEPARTMENT OF
WATER RESOURCES

To whom it may concern:

I am writing to ask that condition of approval no. 6 be waived. The reason I ask this be waived is because there is no way to keep the waste water from entering our L-9 ditch. If a lockable device were put in to try to regulate the water or stop the water it would not accomplish anything. The water would back up and flow over any lockable device installed because there is no other place for the water to go. It would be a waste of time and money that accomplished nothing therefor I request this condition be waived.

Thank you,

Orie Cockrell
