Dear Dan and Tracey::

Congratulations! This transaction has been closed and you are now the owner of a new property. Enclosed is your final Settlement Statement, together with any funds that may be due you as shown.

Please KEEP THE FINAL SETTLEMENT STATEMENT in a safe place. It contains important information that may be needed for income tax preparation. If your recorded documents are not enclosed, they will be forwarded at a later date either by this office or the County Recorder's Office. You will be receiving your title policy within a few weeks.

We will be happy to provide a discount on another title insurance policy insuring this property for a refinance or sale within the next two (2) years. Please request Fidelity National Title Company for your next transaction.

We appreciate this opportunity to be of service. Please feel free to contact us if we can be of any assistance for this or any future transaction.

Sincerely,

A handwritten signature in cursive script that reads "Kim Yelm".

RE: Application for Permit No. 63-35145, 63-35146, 63-35147

Dear Applicants:

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the PRESS TRIBUNE on 1/6/2022 and 1/13/2022. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Denise Lauerman

MEMORANDUM

December 13, 2021

Application for Permit: 63-35146

Author: ABradbury

Subject: Comment/Analysis

AP Memo #52 states that the Department approves the standard season unless the request is otherwise. Western Memo Supplement 0 indicates that it is reasonable to expand this to other uses. Agent confirmed with applicant that season long use was the intent for the existing domestic well and that other dates were mistakenly left in the blanks. The applicant adjusted dates to season long via email. The priority date was not advanced as per Western Memo Supplement 0.

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application for permit, without the appropriate filing fee. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the fee is paid.

IDWR received three applications for permit in your name, one for 0.40 cfs for \$250 and another for 0.18 cfs for \$100. These two have the correct filing fees and both will be processed.

However, the third application did not submit a filing fee. This application is requesting 0.04 cfs for stock water and 0.04 cfs for domestic purposes for a total of 0.08 cfs. Based on the cfs amount listed on this application, a filing fee of \$100 is needed. Please submit this fee at your earliest convenience, and IDWR can begin the process of reviewing your application.

The original incomplete application for permit is enclosed. Please submit the filing fee within the next **thirty (30) days**. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the necessary information or fee.

Sincerely,

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application for permit on October 21, 2021. The application for permit cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- **Item 4:** The point of diversion(s) information needs to include the quarter=quarter. Based on your included map, this may be the SE quarter of the SW quarter. Also, include metal tag # of well.
- **Item 6:** Fill in the total quantity of water to be appropriated in cfs.
- **Item 7a:** Describe the system you will use to divert water from this source. An example of this is pumping from a well to a pressurized sprinkler irrigation system.
- **Item 7c-e:** Amend your applications to include the proposed well diameters and depths of the well and complete section 7d to indicate whether or not ground water with a temperature greater than 85°F is being sought. If proposing to use existing wells fill in 7d.
- **Item 12:** Please provide a detailed narrative of your proposal, listing any unique features.
- **Item 14:** The map must clearly identify the proposed point of diversion and place of use. Please amend your map by outlining where you are planning on irrigating and marking the point where the well will be drilled.
- **Fee:** This application requires a processing fee. The processing fee is based on the total quantity to be appropriated (section 5). See the enclosed fee schedule and submit a check in the appropriate amount.

Applicants who proposed to divert ground water within IDWR Administrative Basin 63 are required to provide an estimate of the interval from which water will be diverted (water bearing zone) prior to the advertisement of their applications. This information is necessary because there are several water availability concerns within Basin 63. The water bearing zone is different than the depth of the well because wells usually access water at different zones along the length of the well casing depending on how it constructed. The water bearing zone can be determined by comparing the water bearing zones of similar wells near the proposed project site, or by

consulting a licensed well driller. Well data can be found using our website at <http://idwr.idaho.gov/wells/>.

Changes to your application should be made by crossing out the old values and writing in the new values with the date and your initials next to the changes.

The original incomplete application for permit is enclosed. Please make the necessary changes to the original form and re-submit within the next **thirty (30) days**. If IDWR does not receive your written response within **thirty (30) days**, a refund will be issued for this filing. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the necessary information or fee.

Sincerely,

Western Region Water Rights Staff
