Hi Laura,
Thank you for the email. It was a pleasure talking with you yesterday. Just a quick question; did you determine 97.8 authorized acres as listed below in the transfer application paragraph or 97.7 acres as listed in the permit application paragraph?

Hello Lori,

Below are the necessary edits from the City of Meridian:

Application for Transfer – Using GIS analysis tools, the determined total place of use is 97.8 acres when combining water right 63-10921 and water rights split from 63-12008 and 63-33370. The combined place of use on the application is 97.5 acres. The increased acre total and rates/volumes impacted can be adjusted by the department since the discrepancies are insignificant.

The place of use description (4.) on Part 1B of the application indicates a total of 105.5 acres, not 102.5 acres. Please edit the quarter-quarter sections on the attached document

Hello Lori,

Below are the necessary edits from the City of Meridian:

Application for Transfer – Using GIS analysis tools, the determined total place of use is 97.8 acres when combining water right 63-10921 and water rights split from 63-12008 and 63-33370. The combined place of use on the application is 97.5 acres. The increased acre total and rates/volumes impacted can be adjusted by the department since the discrepancies are insignificant.

The place of use description (4.) on Part 1B of the application indicates a total of 105.5 acres, not 102.5 acres. Please edit the quarter-quarter sections on the attached document (CityofMeridian_TransferApplication_Part1B) to match the place of use description (9.) on the Application for Permit, add authorized initials and date next to the edit, and return to the department.

Application for Permit – The City seeks irrigation flexibility within the entire 102.5-acre golf course. Since the determined total place of use from the transfer application is 97.7 acres, the additional acres needed is 4.7 acres, not 5 acres as indicated in the correspondence documents. After further review since speaking with you, this discrepancy does not impact the rate of water used for “irrigation” purposes (5.). The Application for Permit is now deemed acceptable for processing and will not require an amendment.

Please return the CityofMeridian_TransferApplication_Part1B document with the requested edit and additions for further processing.

If you have any questions, please reach out.

Regards,

Laura McSherry
