RE: Permit No. 79-14286

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must divert and use water to the full extent intended and submit a *Statement of Completion for Submitting Proof of Beneficial Use* by the date shown in condition no. 1 of your permit. The Department will send you a *Proof Due Notice* approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water permit to maintain current ownership and address records on file with the Department. Forms to file an assignment of permit and/or a change in the address of the permit owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the enclosed information, please contact me at (208) 287-4925.

Sincerely,

for

Phill Hummer
Water Rights Supervisor

Mr. Betts,

Idaho Power would like to clarify its response to question 11.c. of the company's application for permit 79-14286 about the United States Forest Service (USFS) concurrence of our project at Eagle Bar. USFS concurs that Idaho Power Company has the authority to move forward with the project, managed under Idaho Power's FERC license, without a Special Use Authorization from the USFS with the understanding that Idaho Power and USFS will continue to collaborate for the duration of the project. Please see the attached letter from USFS to Idaho Power Company dated July 23, 2019 for reference.

Please include this correspondence along with the attachment in the backfile for application 79-14286.

As always, feel free to contact me with any questions.

Thanks,

Kresta

Dear Mr. Zayas:

Thank you for your letter dated July 9, 2019 regarding your Federal Energy Regulatory Commission (FERC) authorized project for the Hells Canyon Complex (project area as shown in Attachment A of the July 9th letter). I appreciate the fact that Idaho Power Company has been coordinating with the USDA Payette National Forest staff on this project and will continue to do so throughout the design and construction of the project.

The USDA Payette National Forest recognizes the authority of this project falls under Part I of the Federal Power Act and The Federal Land Policy and Management Act of 1976, as amended, specifically 43 U.S.C., 1761(d).

I concur that Idaho Power Company has the authority to move forward with the Hells Canyon Complex project on Eagle Bar, managed under the Idaho Power Companies FERC license, without a Special Use Authorization from the USDA Payette National Forest with the understanding that Idaho Power Company will continue to collaborate with the Forest Service for the duration of this project.

As you move forward with this project, your contact on the USDA Payette National Forest will be Denise Cobb, Realty Specialist. She can be reached at denise.cobb@usda.gov or by phone at 208-634-0446.

Thank you for your continued partnership with the USDA Payette National Forest on this project.

Sincerely,

KEITH B. LANNOM
