NOTE:

A protestant is required to timely file a protest with the department together with a \$25.00 protest fee for each application being protested in order for the protestant to be considered a full party by the department. In addition, the department's Rule of Procedure, IDAPA 37.01.01203, requires a protestant to send a copy of a protest to the applicant.

INSTRUCTIONS

57 The matter being protested must be clearly identified. A typical matter is identified by the application number such as "Application for Permit No. _____ in the name of _____" or "Application for Transfer No. _____ in the name of _____."

58 Show the name of the protestant. Only one (1) protestant may be shown per protest form. If this protest form is signed by more than one person, the hearing officer will consider the first signer as the official protestant and the representative for service of documents.

59 If the protestant is represented by an attorney or other authorized representative, show the representative's name. The department then will serve documents on the representative and upon the protestant if specifically requested.

60 Show the address where the department is to serve the documents. This should be the address of the authorized representative unless the protestant does not designate a representative.

61 Show the telephone number of the authorized representative unless the protestant does not designate a service representative.

62 Specifically describe the nature of the protest.

63 Describe the relief being sought by the protestant.

Attachment A: Basis of Protest & Resolution of Protest: Transfer 85399

Basis of Protest

In accordance with Idaho Code §§ 42-221 and 42-203A(4), the Idaho Conservation League ("ICL") respectfully submits this protest to Application for Transfer No. **85399** (affiliated with Permit No. 77-7141), in the name of Perpetua Resources Idaho, Inc. ("Perpetua").

Founded in 1973, ICL is Idaho's oldest non-profit natural resources conservation organization. ICL has approximately 30,000 supporters, including members in all 44 of Idaho's counties. ICL advocates for conservation values in projects, proposals and protections all across Idaho via education, written comments and testimony, litigation and a variety of other methods. ICL has been in consistent communication with Perpetua (formerly Midas Gold Inc.) about its proposed Stibnite project for more than a decade.

ICL asserts concerns about factors articulated in I.C. § 42-222 and numerous subsections of I.C. § 42-203A(5). Specifically, ICL asserts the application conflicts with both code sections because it will cause injury to existing water rights, including injury to minimum stream flow water rights held by the Idaho Water Resource Board and Wild & Scenic water rights held by the United States.

Additionally, and as articulated in both code sections, ICL asserts that it is not clear from the materials provided: that there is sufficient water supply for the purposes for which it is sought to be appropriated; it may conflict with the local public interest; it may be contrary to the conservation of water resources in Idaho; and as/if this application integrates with the proposed mitigation plan, that it could adversely affect the local economy of the watershed or local area within which the source of water for the proposed use originates if the place of use is outside the watershed or local area within which the source of water originates.

ICL also asserts that it is not clear from the application whether there is an enlargement of use as described in I.C. § 42-222(1) or that the right to use this water has not been forfeited as described in I.C. § 42-222(2).

ICL reserves the right to amend this protest for reasons that may be discovered or set forth as this application moves through the administrative and permitting process.

Relief Requested

ICL asks that this application be amended to address and/or correct the concerns shared above or, in the absence of such amendment, that the application be denied.
