EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Rick,

See the attached documents.

IDWR contacted me today and asked that we have these two documents signed. Due to the change of property and water right ownership the transfer needs to reflect the legal change of the property.

Please have a representative from Box Canyon Land Holdings LLC sign and have notarized the Assignment of Application for Transfer Original Applicant.

Please have a representative from L&S Land Holdings LLC sign the Assignment of Application for New Owner.

RE: Transfer # 85137 – Possible Forfeiture of Water Right 36-10395

Dear Applicant:

The Idaho Department of Water Resources (IDWR) is currently conducting final review and processing of Transfer # 85137 filed in the name of Box Canyon Land Holdings LLC. This application seeks to move several water rights to a system associated with Box Canyon Dairy. One of the water rights included in the application is water right 36-10395, a domestic and stock water right currently appurtenant to land in the NWSW of Section 25, Township 08 South, Range 14 East in Gooding County. Enclosed is a copy of a water right proof report and maps showing the water right location for reference.

Examination of aerial imagery indicates that in 2006 there appears to be a building, possibly a home, and perhaps some pasture area around the building within the NWSW of Section 25. However, 2009 aerial imagery indicates that the building no longer exists and the vast majority of the NWSW of Section 25 consists of lagoon and manure storage areas. More recent aerial photography, including the enclosed maps, also appear to indicate the lack of domestic and/or stock water uses in this area. Please note that 42-222, Idaho Code, (the section of code that allows for transfer of a water right) indicates:

"All rights to the use of water acquired under this chapter or otherwise shall be lost and forfeited by a failure for the term of five (5) years to apply it to the beneficial use for which it was appropriated"

It appears that water right 36-10395 has been forfeited due to lack of use since approximately 2009, a period greater than five years.

Page 2

Transfer # 85137 Letter

September 16, 2021

It should be noted that water right 36-10395 is considered a "deminimus" domestic and stock water right and is limited to 13,000 gallons per day (at most 14.6 acre-feet per year if right is diverted continuously). Transfer #85137 also includes another "deminimus" domestic and stock water right, 36-10899 that is proposed to be moved into the system associated with Box Canyon Dairy. IDWR policy for transfers including multiple "deminimus" domestic and stock water rights is to allow for additional rates for a second "deminimus" domestic and stock water right, but not additional volume. Basically, all the "deminimus" domestic and stock water rights are limited to a total of 13,000 gallons per day or 14.6 acre-feet per year (see approved Transfer # 74857 as an example). IDWR is prepared to allow for the transfer of right 36-10899 as part of the approval of Transfer # 85137, which would provide an additional 14.6 acre-feet per year to the system associated with Box Canyon Dairy. So even if right 36-10395 were to be included as part of the Transfer # 74857 approval as a valid water right, no additional water volume would be provided to the facility above the amount provided by right 36-10899.

IDWR is informing you of our intent to declare water right 36-10395 forfeited as part of the approval of Transfer # 85137. IDWR will suspend the processing of Transfer # 85137 for 14 days to provide you an opportunity to provide information on why water right 36-10395 should not be forfeited as part of the approval of Transfer # 85137. As an alternative, I have provided a notice of abandonment of water right form that can be completed to abandon water right 36-10395. Completing this form and submitting it to IDWR would allow for you to abandon water right 36-10395 and allow for IDWR to continue the processing of Transfer # 85137. If no information is provided to IDWR within the next 14 days, IDWR will proceed with processing of Transfer # 85137. Upon approval of Transfer # 85137, right 36-10395 will be declared forfeited.

If you have any questions, feel free to contact me at your convenience.

Sincerely,

Corey Skinner, PE
IDWR Southern Region Manager

MEMORANDUM

Date: August 31, 2021
To: Transfer 85137
From: Bill Mills
Re: Evaluation of Sufficiency of Information Submitted

Transfer proposes adding two points of diversion and changing the place of use for five stockwater/commercial water rights (1.71 cfs combined total) currently in use at an existing dairy facility, locally known as "Box Canyon Dairy", located approximately 5.0 to 5.5 miles south and 2.7 to 3.4 miles west of Wendell. Application also proposes changing the points of diversion and place of use for portions of four stockwater/commercial water rights (0.46 cfs total) to be transferred from three separate dairy facilities to the "Box Canyon Dairy" site. These three separate dairy facilities are all located within a half mile of the "Box Canyon Dairy" site. Application proposes a total of five wells, four existing wells and one proposed new well to be drilled at the "Box Canyon Dairy" site to allow for the diversion of a total combined rate of 2.17 cfs.

All wells and places of use involved in the transfer are located within the ESPA model boundary, but modeling was not required as the wells are all located in adjacent cells. All wells and POU's in the transfer are also located within water District 130. Watermaster comments were solicited and the Watermaster did not oppose approval of this application.

- **Authority to File:** Applicant is listed as the current owner of all water rights and properties in this transfer. Applicant provided a warranty deed indicating ownership of the additional grounds proposed to be added to the POU through the transfer.
- **Water Right Validity:** Water rights 36-2312D, 36-4151B, 36-7291D, 36-7387D, 36-10395 and 36-10899 were all decreed in the SRBA prior to 4/28/2007. Water rights 36-7871, 36-8362 and 36-8367 were all licensed prior to 3/24/1995. Recent aerial imagery indicates all water rights, with the exception of 36-10395 and the domestic portion of 36-10899, appear to be in use at all facilities where the water rights are authorized for use. WMIS records also indicate ground water is being actively utilized at these same facilities. Aerial imagery indicates that water right 36-10395, a ground water domestic and stockwater right (0.06 cfs total), has not been in use since 2009. The home was removed sometime between 2006-2009 and the place of use was developed as a dairy lagoon and solid dairy

waste storage site shortly after the home was removed. Recommend water right 36-10395 be reviewed for potential forfeiture. The home that was associated with ground water right 36-10899, based on aerial imagery, was removed sometime between 2011 to 2013. However, the stockwater component of the right has been continuously diverted and utilized at the facility based on WMIS record data for this facility. As such, I have removed the domestic portion from this right. If right 36-10395 is forfeited, this will result in a combined total amount of 2.11 cfs and 430.6 af being transferred or changed at the dairy facility.

- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on the Economy of the Local Area:**
None Anticipated.
- **Effect on Agricultural Base of the Local Economy:**
None Anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
