Dear Sirs:

The purpose of this memo is to clarify information contained on my Statement of Completion.

The simple irrigation project was completed September 2021.

Photo #1 – Locked Shed – beach area/irrigation site.

Photo #2 – Water 5 H.P Pump located inside locked shed.

Photo #3 – Water Pump Hose --- Lake to Pump – connects to 2 lawn hoses. Located adjacent to Locked Shed.

Photo #4 – Water Pump Small Metal Pump Enclosure

We use the above irrigation system to water our fruit trees, etc.

It is only taken from the locked shed when we are present in our lake cabin.

At that time – the irrigation pump operates from the small metal pump enclosure.

The water intake green pump hose water screen meets permit standards and the amount of water occasionally used meets permit standards.

Hope these photos explain how we will comply with the permit and use minimal water – only when we are present for irrigation – fruit trees.

Thank you.

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 95-17576

Dear Permit Holder:

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Northern Region Office of the Department located in Coeur d'Alene at (208) 762-2800.

Sincerely,

Debbi Judd
Technical Records Specialist
