Blake,

See the attached aerial map for acres irrigated in 2021 and that will be irrigated in 2022.

Subject: Place of Use Adjustment Water Rights 35-14736, 35-14453 and 35-14454. Toevs

Hi Greg,

Below is a snip of a 2021 satellite image showing an irrigated acres place of use discrepancy for water rights 35-14736, 35-14453 and 35-14454. The water rights authorize the irrigation of 121 acres within a 461.4-acre PPU. The acres irrigated in 2021 are different than the proposed irrigated acres we have in our GIS data base. For 2022, does Toevs plan to irrigate the same 2021 irrigated acres? If that is the plan, then Toevs probably should submit a new land list and map identifying the proposed acres to be irrigated in 2022.

Thanks,
Blake
