Subject: Water Supply Bank Applications for 63-5109 & 63-5373

On September 10, 2021, the Department of Water Resources (Department) received application(s) to lease water right(s) 63-5109 & 63-5373 to the Water Supply Bank (Bank) submitted for C-M LLC. Water Supply Bank Rule 25 (also known as IDAPA 37.02.03.025) requires the Department to evaluate whether the water right has been lost through abandonment or forfeiture as defined by Section 42-222(2), Idaho Code. Section 42-222(2) states, in part, "All rights to the use of water acquired under this chapter or otherwise shall be lost and forfeited by a failure for the term of five (5) years to apply it to the beneficial use for which is was appropriated."

A review of aerial photography between 2003 when the right was partially decreed in the Snake River Basin Adjudication and 2007 when the rights were placed in the Bank, then from 2017 to 2020 when the rights were not protected shows no evidence of irrigation on the acres proposed to be leased to the Bank. That is a total of 6 years of apparent non-use. The forfeiture toll period does not reset after the rights were placed in the Bank. It also appears that C-M, LLC, does not own any land where the water rights are appurtenant. Were the water rights withheld in the sale of the land?

Because of this evidence of more than five years of non-use, the requirements of Water Supply Bank Rule 25 cannot be met, and the attached lease application(s) may be **denied**. If you can provide additional information to show beneficial use has occurred, please submit the additional information within **30 days** and the Department will continue processing the applications. If you cannot provide the additional information, the Department will deny the applications. Department resources were expended to provide a full review of the applications. Therefore, the lease application filing fee will not be refunded.

If you have any questions regarding this matter, please contact the Department of (208) 287-4800. Thank you.
